## **Acknowledgement**

First and foremost, on behalf of Community Development and Environment Conservation (CDECF), I would like to thank the communities of project area of six Village Development Committees (VDCs) namely Bansbari, Bandegau, Sindhukot, Thakani, Haibung and Bhotechaur who supported to implement this project in various ways and extended warm hospitality during field visits, without whom this report would not be possible. The active participation of communities and overwhelming support of local stakeholders are very much appreciative.

The CDECF team is grateful to the UNDP/Comprehensive Disaster Risk Management Programme officials, particularly, Mr. Man Bahadur Thapa, Ms. Krishna Karkee, Mr. Deepak KC, Ms. Geeta Pradhan, Mr. Surya Poudel and Mr. Arjun Giri for their support and encouragement during the project implementation. The project implementation team benefitted greatly from their valuable suggestions and guidance in various steps of project implementation.

I would like to express my deep sense of gratitude to the members of multi hazard risk assessment, Dr. Govinda Basnet (Team Leader- Environmental Anthropologist), Dr. Chandra Prakash Poudyal (Geologist), Mr. Hari Bahadur Karki (Watershed Management Expert), Mr. Upendra Man Shakya (Socio-economic Expert), Mr. Shantosh Karki (Research Assistant), Mr. Dipendra Man Shakya (Engineer), for their hard work and great effort to complete the multi hazard risk assessment of Sindhukhola watershed. The enthusiasm and patience of the study team is highly appreciated. Prof. Dr. Narendra Khanal for his help on methodological issues and comments to improve the multi hazard risk assessment report. We would also like to thank Mr. Madan K. Suwal, for his help, especially in preparing hazard maps of five project VDCs.

My sincere thanks go to the members of District Disaster Relief Committee (DDRC) and District Project Coordination Committee (DPCC) for their valuable suggestion, support in project implementation and coordination to create synergy and sustainable impact of the program.

I would like to thank Mr. Niranjana Shrestha and Krishna Prasad Ghimire, District Soil Conservation Officers; Mr. Ishwori Pandey, Senior Agriculture Development Officer, Mr. Lokendra Bohara, Crop Protection Officer; and Mr. Krishna Wosti, District Forest Officer, Mr. Ram Babu Yadav, Asst. Forest Officer, for their support and guidance during multi-hazard risk assessment and the preparation of watershed management Plan.

I also express my sincere thanks to executive board members of CDECF who supported in many ways for effective implementation of project. The working atmosphere provided for us is very much appreciative.

I am very much grateful to the project team of the Community Based Disaster Risk Management Project (CBDRMP)/CDECF, Sindhupalchok namely Mr. Bed Bhurtel, Project Associate, Mr. Ichchha Ram Sapkota, Social Mobilizer (SM), Mr. Pandab Adhikari, SM, Mrs. Sunita Sanjel, SM, Mr. Raghu Nath Neupane, SM and Mr. Pushpak Bista, Accountant. Working with this dynamic team has been a great pleasure. Last but not least, Mr. Govinda Prasad Sapkota, Executive Director/CDECF in coordinating district level activities and provided administrative support.

Puspa Raj Poudel, PhD

Project Coordinator,

Community Based Disaster Risk Management Initiatives in Sindhupalchok District in Nepal  
August, 2013

## **Executive summary**

**Overall Objective:** The overall objective of the community based disaster risk management project is "to contribute improving disaster resiliency of the vulnerable communities".

### **Specific Objectives**

- To sensitize and raise awareness on disaster risk management (DRM) to local communities
- To strengthen capacity of local community, schools and government line agencies
- To support community based disaster risk management initiatives
- Mainstreaming of DRM in development process

The project was implemented for improving disaster coping capacity of vulnerable communities. The project tried to sensitize the target communities and beneficiaries about disaster management practices so that they could have better prepared about the possible disaster in their area and improved livelihood condition. The project put its great efforts to conduct multi-hazard risk assessment in the project area. The multi-hazard risk assessment greatly helped to identify the level and source of risk of the communities of the project area. Multi-hazard risk assessment was main basis for implementing project activities. The project facilitated to form and strengthen Community Based Disaster Risk Management Committees, Local Disaster Risk Management Committees, school based Environment Conservation and Disaster Risk Reduction Clubs (ECO DRR Clubs) to establish institutional basis for disaster risk management (DRM). A project coordination committee (DPCC) formed at district level was instrumental to provide guidance for project implementation and bridge the local communities with district level stakeholders particularly District Disaster Relief Committee (DDRC).

Capacity strengthening trainings such as search and rescue, first aid, early warning system and mitigation techniques were very effective especially sensitizing rural people on DRM and improving coping capacity of the local people. Involvement of line agencies in various trainings and programmes was very much helpful making direct interaction between duty bearers and community people. The livelihoods related skill trainings such as vegetable production, non-timber forest products (NTFPs) cultivation, production and processing, market planning and business plan development training helped to diversify livelihood option of the community. Small mitigation activities were very much effective to attract people's motivation on DRM initiatives. Creation of ECO DRR clubs and implementing DRM focused extracurricular activities were helpful to enhance knowledge of student on DRM and sensitize community people through their

children. A total of 25049 people benefitted directly or indirectly by the implementation of this project.

So far, community level disaster risk management plan, local disaster risk management plan (VDC level) and watershed management plan are prepared by the community with the support of the project. These plans are prepared by community in consultation with experts, district and village level stakeholders through intensive discussion. These plans provide strong insight on vulnerability and actions to be undertaken to reduce the risk thereby improving livelihood of the community. Hence, as the communities, VDCs and local stakeholders have taken initiatives to implement the plan, it is too ambitious to expect that the plan will be fully implemented by communities and government line agencies without external and additional resources. If it is left as it is, the plan could be for plan only. Hence, implementing those plans is major challenge in the days to come. Therefore implementation of CBDRMP, LDRMP and watershed management plan consolidating the learning of past experiences could improve disaster resiliency of the community collectively.

# 1. Background

## 1.1 Introduction

United Nations Development Programme/Comprehensive Disaster Risk Management Programme (UNDP/CDRMP) made a formal agreement with Community Development and Environment Conservation Forum (CDECF) on 06 December, 2011 for providing services for implementing community based climate risk management initiatives in Sindhupalchok district in Nepal.

The services were mainly focused on:

- Baseline Mapping/Stock-taking/Action Plans and implementation strategies
- Strengthening capacity of the communities, schools and local government agencies on community based disaster risk management (CBDRM)
- Coordination and linkages
- Sensitization, awareness and advocacy
- Support implementation of community based (CBDRM) initiatives including small mitigation measures
- Ensure sustainability of the initiatives

The project is implemented in six VDCs of Sindhupalchok district namely- Bandegaun, Bansbari, Sindhukot, Thakani, Haibung and Bhotechaur. Sindhupalchok district is located in the range of mid hill, high Mountain and high Himalayan physiographic regions in Central Development region. The project VDCs Badegaun, Bansbari, Thakani, Sindhukot, Haibung and Bhotechaur VDCs of the district lies in the watershed area Sindhukhola and Indrawati River. The area lies in approximately 65 Km far from district headquarter Chautara of Sindhupalchok

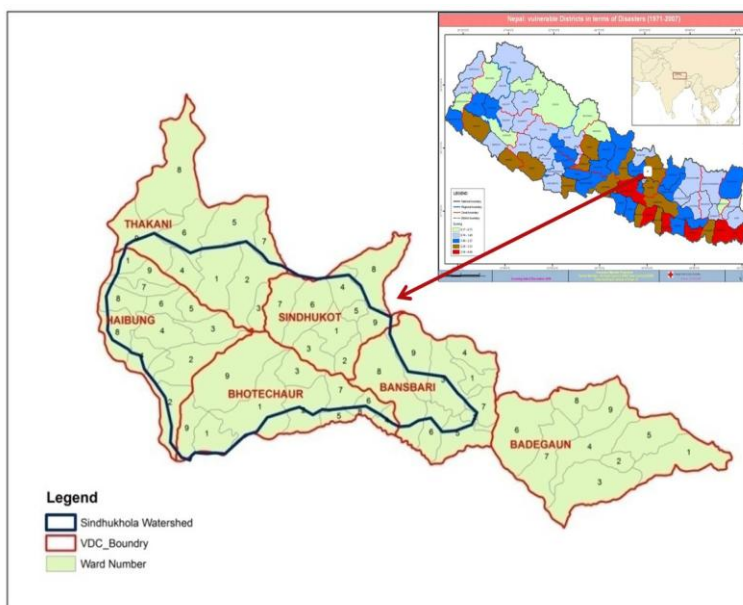

Fig. 1. Map of project site

district and roughly at the same distance from Kathmandu. Melamchi Pool Bazar and

Bahunepati Bazar are emerging market centers in the area are connected with road in 2047 B.S. from Zero Kilo lying in Araniko Highway by motor able road through Sipaghat. Bhotechaur Bazar, another emerging market center of the area, is connected by black topped road with Kathmandu through Sankhu Bazar. The small market centers located along the road fairly connected with landline and mobile telephone. Implementation of the Melamchi Diversion Scheme (MDS) has increased the potentiality of the Melamchi Pool Bazar and Bahunepati Bazar for local agriculture based products and employments opportunities through construction companies.

## 1.2 General characteristics of the project area

### 1.2.1 Demographic characteristics of the project area:

The major caste groups in the project area are Tamang, Brahmin, Chhetri, Majhi, Damai, Kami, Gurung, Newar and Magar. The proportion of the indigenous caste group in the project area is very high (Table 1) presenting evidences of higher vulnerability to natural disasters. Of the total population, approximately 75 percent is dependent on agriculture. The data shows that the district stand at position of 54, 60, 50 and 31 positions in human development index, Human Poverty index, gender relation development index and human empowerment index respectively showing higher vulnerability of 75 district. The literacy rate of the Sindhukhola watershed area ranges 71.15% in Thakani to 82.03% in Bansbari VDC, poor socioeconomic status; livelihoods are heavily reliant on traditional agriculture. Minor conflicts related to poverty and inequality is common cases in the area.

**Table 1: Demographic composition of project area**

| VDC        | Total<br>Population | Male | Female | Disaggregate Data on |       |     |
|------------|---------------------|------|--------|----------------------|-------|-----|
|            |                     |      |        | Janajati             | Dalit | PwD |
| Bansbari   | 5703                | 2873 | 2830   | 3001                 | 289   | 47  |
| Sindhukot  | 4347                | 2231 | 2116   | 1145                 | 1044  | 26  |
| Thakani    | 4609                | 2310 | 2299   | 3678                 | N/A   | 4   |
| Haibung    | 1826                | 1771 | 3597   | 2947                 | 230   | 30  |
| Bhotechaur | 6435                | 3278 | 3157   | 1680                 | 354   | 17  |
| Bandegaun  | 7351                | 3676 | 3675   | 3267                 | 741   | 29  |

**Source:** District Profile Sindhupalchok, 2067 (Note: PwD- person with disability)

### 1.2.2 Livelihood:

The major sources of livelihood in the project area are agriculture and livestock (approximately 80 % of people depend in agriculture) supplemented by remittance, labor work, business, and various types services including government services. The cultivated land is characterized by

low productivity. Food security is one of the major issues of the area (Detail is presented in table 2).

**Table 2. Food sufficiency (in percentage) status in project VDCs**

| VDC        | 3-6 months | 6-9 months | 9-12 months | >12 months |
|------------|------------|------------|-------------|------------|
| Thakani    | 38.27      | 13.58      | 44.44       | 3.70       |
| Haibung    | 26.21      | 40.78      | 32.04       | 0.97       |
| Bhotechaur | 32.97      | 20.54      | 22.16       | 24.32      |
| Sindhukot  | 36.44      | 32.20      | 25.42       | 5.93       |
| Bansbari   | 17.33      | 17.33      | 40.00       | 25.33      |

### 1.2.3 Disaster situation:

Sindhupalchok district is ranked in moderate category (0.356 -0.600) to an overall climate change vulnerability index.<sup>1</sup> The flagship 4 documentation of Nepal Red Cross society shows that the district stands at 8<sup>th</sup> position to overall vulnerability index and rank at first vulnerable district to landslide hazard out of seventy five districts<sup>2</sup>.

The project VDCs lie in the lesser Himalaya tectonic zone. The rock types of the project area are of lesser Himalaya and higher Himalaya. Higher Himalaya rock types are common in the upstream parts of the Indrawati River. The lesser Himalaya zone is the most important barrier to monsoon clouds and influences the rain pattern in Nepal. The southern part of the Mahabharata range gets comparatively higher rainfall and frequency of the high intensity rainfall is also high. The higher rainfall and higher frequency of high intensity rainfall in the project area compared to other similar physiographic area is the main cause of water induced problems including floods, debris flow and shallow landslides with periodic big disasters in the district. A total of 500 people have lost their lives from 1971 to 2007 due to various types of hazards (Table 3). The loss of property from water-induced disasters is significantly high. The District Administration Office Sindhupalchok distributed NRS 1282000.00 as relief support to the affected families including

| Total |                       | 500             |

Source : Disaster Preparedness plan, DDRC, Sindhupalchowk, 2010

Every year, the flood induced by erratic rain in Sindhukhola and Indrawati rivers damage substantial area of agriculture land and jeopardizes livelihood of some households. Data collected during different surveys such as during the preparation of local disaster risk management plan (LDRMP) and community based disaster risk management plan (CBDRMP) preparation and multi hazard risk assessment in

project VDCs shows following damage by different hazards-

**Table 4: Hazard history of the project VDCs**

| VDC<br>(Location) | Year of disaster<br>(BS) | Damage/loss                                                           |
|-------------------|--------------------------|-----------------------------------------------------------------------|
| Bansbari          | 2028                     | Agriland damaged by floods in Sindhukhola                             |
|                   | 2040                     | 25 hectare of land damaged by flood                                   |
|                   | 2045                     | 7 houses damaged by earthquake                                        |
|                   | 2048                     | 10 hectares of land destroyed by flood                                |
|                   | 2057                     | 1 hectare of land destroyed by flood in Sindhukhola                   |
|                   | 2062                     | One house collapsed by high intensity rainfall                        |
|                   | 2064                     | 25 hectares of land destroyed by landslide                            |
|                   | 2061                     | Fire in 146 hectare of forest                                         |
| Sindhukot         | 2011                     | 20 hectare of land destroyed by flood                                 |
|                   | 2022                     | 2 hectare of land destroyed by landslides                             |
|                   | 2025                     | 20 people died by epidemic                                            |
|                   | 2028                     | 4 people and 9 livestock died by fire                                 |
|                   | 2039                     | One house destroyed by lightening                                     |
|                   | 2042                     | 4 houses destroyed and 6 livestock killed by fire                     |
|                   | 2045                     | 3 houses destroyed by landslides                                      |
|                   | 2048                     | 3 people and 11 livestock killed by lightening                        |
|                   | 2058                     | School destroyed by earthquake                                        |
|                   | 2066                     | One house destroyed by lightening                                     |
|                   | 2067                     | One house destroyed and 4 livestock killed by lightening              |
|                   | 2068                     | One house destroyed by earthquake                                     |
| Thakani           | 2022                     | 200 hectare of land covered by sand debris                            |
|                   | 2035                     | 25 hectares land destroyed by landslides                              |
|                   | 2036                     | 4 houses and 4 livestock destroyed by fire                            |
|                   | 2045                     | 4 houses destroyed by fire                                            |
|                   | 2055                     | 17 household displaced and 25 hectares of land destroyed by landslide |
|                   | 2064                     | 11 household displaced by landslides                                  |
|                   | 2067                     | One people died by lightening                                         |

| VDC<br>(Location) | Year of disaster<br>(BS) | Damage/loss                                                 |
|-------------------|--------------------------|-------------------------------------------------------------|
|                   | 2068                     | 63 houses partially affected by earthquake                  |
| Haibung           | 2036                     | One cowshed destroyed and 5 livestock killed by landslide   |
|                   | 2045                     | 50 houses destroyed (partially or completely) by earthquake |
|                   | 2052                     | 4 households affected by landslides                         |
|                   | 2055                     | Crop damaged by hailstone                                   |
|                   | 2058                     | 4 houses destroyed by earthquake                            |
|                   | 2060                     | Crop damaged by hailstone                                   |
|                   | 2065                     | One house destroyed by fire                                 |
|                   | 2066                     | 4 livestock killed by lightening                            |
|                   | 2069                     | One hectare of forest destroyed by landslide                |
| Bhotechaur        | 2016                     | One house destroyed and 4 livestock killed by fire          |
|                   | 2022                     | 450 ropani of land destroyed by flood                       |
|                   | 2028                     | 2 houses destroyed by landslide                             |
|                   | 2068                     | One killed by landslide                                     |
|                   | 2069                     | Three students killed by landslide                          |

### 1.3 Context, goal and objectives of Community Based Disaster Risk Management Project, Sindhupalchok:

The downstream of the project areas which lie along the side of Sindhukhola and Indrawati river are at high disaster risk zone due to frequent flooding, landslides and soil erosion. The geographical areas of Badegaun and Bansbari VDCs extend from bank of the Indrawati River which is largely affected by frequent change of river course, flood and landslides. Human settlements have been affected from bank of the river due to flood and landslides in Badegaun VDC. The establishment of three stone crusher industries at the bank of Indrawati River has further exacerbated risk of disaster due to changing the course of Indrawati River. Hence, aiming to reduce hazard vulnerability of communities in Bansbari and Bandegau VDCs, a project “Regional Climate Risk Reduction Initiatives in the Himalayas” was piloted for five months. The major interventions of the project were focused on hazard vulnerability assessment

of project, creation of community based disaster risk management committee (CBDRMCs), ECO DRR clubs and capacity strengthening of CBDRMCs through trainings and awareness programmes. The project made a significant impact on improving disaster resiliency of the target communities in a very short period of time. RCRRP in the Himalayas became a milestone for further extension of project area and up scaling the initiatives. Hence, the project “Community based disaster risk management initiatives in Sindhupalchok district in Nepal” was launched in Sindhukhola sub-watershed (nearby area of communities under RCRRP in the Himalayas) and part of Indrawati watershed (Communities under RCRRP in the Himalayas) which covers part of five VDCs Bansbari, Sindhukot, Thakani, Haibung and Bhotechaur and part of Bansbari and Bandegaun VDCs respectively.

### **Goal**

The goal of the project is to develop disaster resilient communities in the project area.

### **Objectives**

The overall objective of the project is to promote and strengthen community based disaster risk management institutions in the project area through capacity enhancement measures and the integration of livelihood improvement activities. The specific objectives of the project are-

1. To sensitize and raise awareness on disaster risk management (DRM) to local communities
2. To strengthen capacity of local community, schools and government line agencies
3. To support community based disaster risk management initiatives
4. Mainstreaming of DRM in development process

## **1.4 Project implementation strategy:**

### **Core project area selection (Identification of most vulnerable communities within the project area):**

CDECF deployed a multi-hazard risk assessment team as outlined in the ToR to carry out risk assessment of the project area (Sindhukhola watershed). The multi hazard risk assessment team followed a rigid and precise methodology to identify risk level of the community. The procedure mainly included geo-morphological study, household survey, focus group discussion, participatory rural appraisal, hazard mapping, transect walk and community level workshops. Community level workshops were very much helpful to address the concerns and aspiration of

local people. The basis of implementation of CBDRM in the Sindhukhola watershed is the findings of multi-hazard risk assessment which gave the level and sources of risk. Based on the result of the assessment, the location and number of the community based disaster risk management committee (CBDRMCs) to be formed in the area were determined in high risk settlement. Hence, a total of 11 new CBDRMCs were formed in high risk zone of the project area.

Most of the DRR actions identified in the ToR were implemented in the high risk area. In medium risk area, light DRR actions like awareness creation and capacity building programs were implemented. In least risk area only awareness related activities were implemented.

### **Implementation structure:**

District Disaster Relief Committee (DDRC), a focal institution which oversees DRM activities in the district, is chaired by Chief District Officer (CDO). Immediately after the agreement was signed for service provision, the project activities were shared with all stakeholders of the district including DDRC Sindhupalchok which is the main owner of the project actions even after the project is phased out. After sharing the project interventions with district stakeholders, a district project coordination committee (DPCC) was formed at district level to guide proper implementation of the project involving line agencies that are closely linked to livelihood, soil conservation, forest management and disaster management. The District Project Coordination Committee is very much supportive to link project interventions with other resources for the project areas which minimize the vulnerability of local people. The DPCC consisted following members-

- ❖ Chief District Officer (CDO)- Chairperson
- ❖ Local Development Officer (LDO)-Member
- ❖ District Agriculture Development Officer (DADO) –Member
- ❖ District Soil Conservation Officer (DSCO) –Member
- ❖ District Forest Officer (DFO) –Member
- ❖ Women and Child Development Officer (WCDO) –Member
- ❖ Division of Water Induced Disaster Control (DWIDC), Trishuli, Nuwakot-Member
- ❖ Federation of Nepalese Journalist (FNJ), District Chapter-Member
- ❖ Nepal Red Cross Society (NRCS), District Chapter-Member
- ❖ Community Based Disaster Risk Management Project/Community Development and Environment Conservation Forum (CBDRMP/CDECF) –Member Secretary

**Guiding principles:**

- Focus the project to achieve demonstrable impact on the disaster resiliency of impact group
- Forge strategic coalitions and partnerships as conduits for policy advocacy
- Strengthen and focus CBDRMCs as a leading institution
- Develop transparent systems for result-based project implementation
- Bottom up approach

**Implementation modality**

- ❖ Institutionalization of DRR in local level
- ❖ Strengthening to CBOs
- ❖ Networking and Coordination
- ❖ Capacity Building
- ❖ Information and Awareness
- ❖ Empowering VDC/DDC
- ❖ Mainstreaming of DRR in local and district level development activities

## **2. Major achievements**

### **2.1 Multi-hazard risk assessment and watershed management plan**

#### **2.1.1 Multihazard risk assessment**

##### **Background**

Nepal is a hotspot for geophysical and climatic hazards. Fragile geological condition, poor construction practices, unplanned settlements, and cultivation in marginal land are some of the factors contributing to higher frequency of natural hazards. Nepal ranks at 11th position on earthquake risk and 30th position in flood disasters risk (NSDRMN 2009). Mountain specificities such as verticality, fragility and inaccessibility are crucial elements for landslide vulnerability in mid-hills and high mountain. Mid hill and High Mountain are highly susceptible to landslide hazards. Existing poverty of the country is the main reason for increased vulnerability of the country. Because of poverty disparities in terms of geography, caste, ethnicity, and gender, vulnerability to the natural disasters varies accordingly even at the same level and frequency of hazard. Nepal has adopted the Hyogo Framework for Action (2005-2015) through preparation and approval of National Strategy for Disasters Risk Management Nepal (2009) for making resilient communities and nation.

Against this background, a Multi-hazard Risk Assessment was carried out in Sindhukhola watershed of Sindhupalchok district as a part of the Community Based Disaster Risk Management Initiative. The Initiative has been undertaken by the Community Development and Environment Conservation Forum (CDECF) under the support of the Comprehensive Disaster Risk Management Program of the UNDP. The assignment also involved preparation of watershed management plan.

##### **Methodology**

The study consisted of two phases: vulnerability risk assessment and preparation of watershed management plan. Overall, the study followed the participatory approach in both phases. The study relied on primary data collection complemented by secondary data collected from various sources. Primary data were collected through community workshop, participatory resource and hazard mapping, oral history, household survey, recording of geographical coordinates of houses and community infrastructures, and direct observation.

The settlements from 40 wards within the watershed were grouped into 16 clusters, primarily based on proximity following a rapid survey. First round of community workshops were organized in February 2012 and community resource maps were drawn. In these workshops, hazard history, information for vulnerability assessment, and resource use pattern were also obtained. Household survey was conducted with 20 percent sampling size in 542 households. Proportionate stratified sampling method was followed for sampling. Geographical coordinates of all the households, disabled people and community infrastructures within the watershed were recorded using GPS. Satellite images and topo-sheets were used to study landuse changes and for landslide mapping. The information thus generated was analyzed and preliminary findings were prepared. The second round of workshops was conducted one in each VDC where the findings were presented for verification and to identify the issues and activities for preparation of watershed management plan.

The methodology was shared with the district level line agencies and other stakeholders prior to the initiation of the study and with the partners of other districts where similar programs are being implemented. The final hazard risk assessment and watershed plan were presented to the district level stakeholders in the district headquarters Chautara. The major limitation of the study was findings of hazard and vulnerability assessment could not be presented at cluster level (analysis unit comprising one or more wards) for the errors in ward boundaries in the base maps prepared by the Department of Survey.

### The Study Area

The Sindhukhola watershed lies in Sindhupalchok district and covers an area of 50.67 sq km and the elevation ranges from 780 msl to 2360 msl. The watershed lies at 27 km distance from

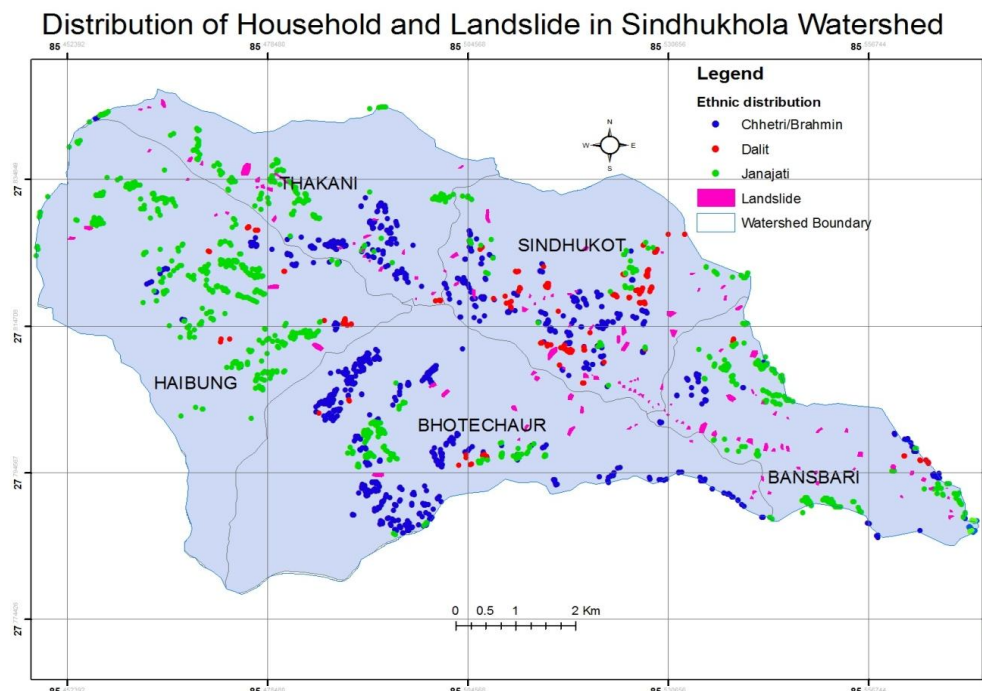

Fig. 2. Ethnic distribution in Sindhukhola watershed

Kathmandu. There are 5 VDCs in the watershed: Bansbari, Sindhukot, Thakani, Haibung, and Bhotechaur. Some parts of these VDCs fall within the watershed. Altogether there are 40 wards in the watershed, part of some of which fall outside the watershed. The Sindhukhola drains the watershed.

The landuse/ landcover (LULC) analysis showed that agriculture (21.31 sq. km) is the major LULC type followed by dense forest (17.98 sq km) and sparse forest (9.82 sq km). In the period from 1990 to 2010, the agricultural area has declined by 3.71 sq km and the dense forest has increased by 7.85 sq km. The vegetation types range from subtropical forest with hill Sal (*Shorea robusta*) forest along Indrawati river in Bansbari VDC, *Schima walichii* and *Castanopsis* type, *Alnus nepalensis* type, and lower temperate broadleaf mixed forest type. Altogether there are 34 community forests occupying a total area of 522.12 ha.

Altogether, there are 2602 households within the watershed. The major ethnic groups are Chhetri/Brahman, Tamangs, Gurungs, and Dalits. The number of households of Chhetri/Brahman, Janajatis, and Dalits in the watershed are 1170, 1191, and 241 respectively. Sindhukot VDC has the largest numbers of Dalit households of 178. The average family size ranges from 6.02 to 7.17. The literacy rate is over 70 % in all the VDCs.

People adopt multiple means of livelihood options and adoption of particular means is dynamic. However, still, by and large, agriculture is the mainstay for the majority of the households in the watershed. The construction of roads for Melamchi Drinking Water Supply Project has opened the watershed for the wider market forces. Employment in government and foreign countries are major sources of cash income. Agriculture is still largely of subsistence nature, although commercialization is also gaining momentum, especially in the settlements closer to roads. Over the years application of chemical fertilizer has greatly increased. These days, in most of the settlements farmers cannot grow crops without use of chemical fertilizers greatly exposing them to ecological and market drivers of changes. Over the years, crop raiding by monkeys and wild boars has become a major problem in agriculture sector.

Animal husbandry is an integral part of farming. Over the years, the number of animals kept by a household has declined but the productivity of livestock has increased. The number of cows has declined. Buffaloes and cows are stall fed whereas goats are grazed. Milk production has

become one important economic activity, especially in areas closer to roads. Farmers have established many cooperatives for milk production and marketing.

One of the major types of resource governance institutions in the watershed is Community Forestry Users Groups (CFUGs). There are 34 community forests which have been already handed over to the communities. However, many of these groups reported that the operational plans of these CFUGs have not been updated. All the villages have one or more women's groups, most of which are involved in regular saving and credit activities. In the recent past, number of cooperatives has greatly increased. Many of these cooperatives deal with milk production and marketing. Another important local level institution has been the committee formed by the Social Upliftment Program of the Melamchi Drinking Water Supply Project. Their network extends to ward level. They run activities relating to social, economic and resource conservation activities.

### **Geological features and multi hazards**

The Sindhukhola watershed falls in Higher Himalaya zone among the major tectonic units of Nepal. The area comprises two local thrusts running east west direction at the north-western corner and one at the south eastern corner. The major drainage Sindhukhola runs almost parallel to the axis of anticline and its tributary passes with major thrusts of the area. There are five different tectonic units each of which are separated with the thrust faults. Major rock types found in the area as follows Sermathang Formation, Simpani Formation; Hadi Khola Schist, Dhad Khola Gneiss, and Gyalthung Quartzite. Major Thrust runs through the middle part of the Sindhukot VDC near upper part of the Dhungechhap, passes to Bhotechaur VDC at Tallo Jaisegaun and also passes to Haibung VDC.

Different types of hazards have impacted the watershed with different levels of intensity. Some of the most important hazards are landslides, thunderbolts, earthquakes, flooding, hailstorms, drought, and fire. Other hazards like wildlife damages and unregulated infrastructure development activities have also been emerging in importance lately. The risk level of different types of hazards varies in different locations within the watershed. Landslides are the most common and important hazards in the watershed. Besides the rainfall, steep slope angle and the tectonic structures found within small area also play role in initiating the instability.

Most of the landslides are not manageable locally. The majority of the landslides found in the watershed are of soil slope failure type in the lower slope angle but in the higher slope angle rock slides are common. Debris flow is found in Tamakhani, Chilaune and other landslides. The left bank of Sindhu Khola has access road to the Bansbari, Thakani VDCs and the road side areas are more vulnerable to the landslide.

Landslide hazard map was prepared using different factors such as slope angle, aspect, landuse, geology, distance from drainage, topographic wetness index and stream power index. Frequency Ratio Method was used to calculate the weight

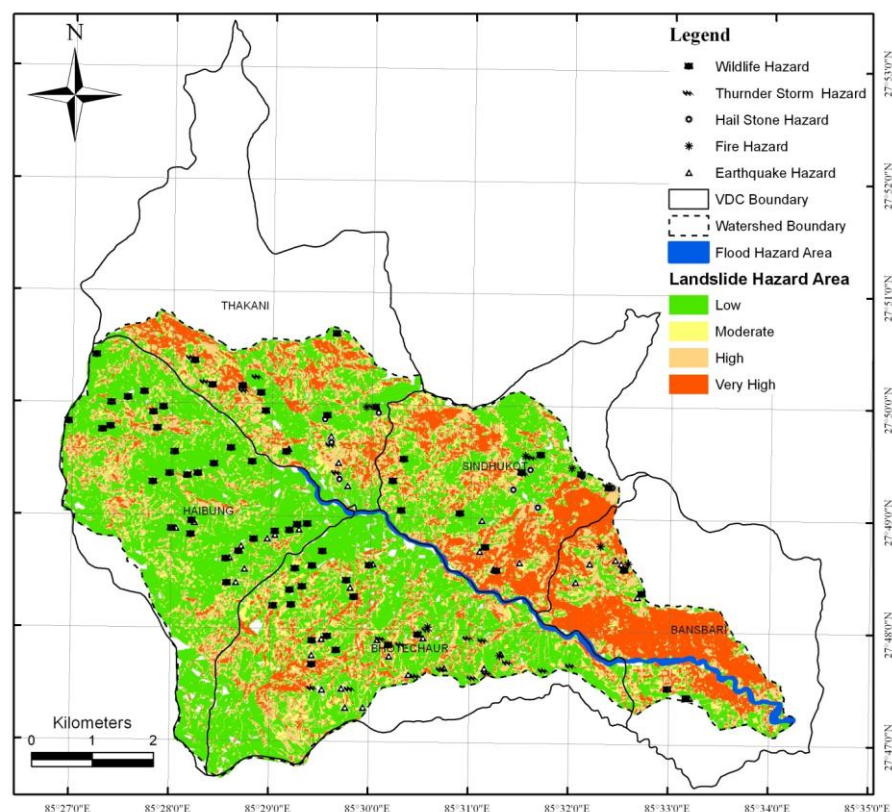

Fig.3. Comprehensive hazard map of the Sindhukhola watershed

for each factor and for final map preparation. The analysis showed that 60 % of watershed falls in low hazard level followed by 20% in medium hazard and 10 % each in high and very high hazard zone.

Among other hazards flooding occurs in lower section of the Sindhukhola in some years. One such event was recorded in 2027 BS. Thunderstorms occur almost every year mostly in pre-monsoon season causing damages to crops and properties. The severity of the hazard varies from year to year and place to place. Hailstorms are also a regular hazard occurring mostly before harvesting of wheat in April and paddy/ millet around November. Earthquake, forest fire, thunderbolts, and drought are other hazards.

In recent years, the crop raiding by wildlife has been increasing in most parts of the watershed. Wild boars are the major pest in settlements lying at higher elevation and monkeys are the major pest in settlements lying at lower elevation. Rural road construction without proper alignment is impacting the communities.

### **Livelihood Vulnerability Index**

The Livelihood Vulnerability Index (LVI) is calculated as a function of exposure, adaptive capacity, and sensitivity. Factors taken for adaptive capacity were: Proportion of economically active population, Proportion of literate people, Proportion of people engaged in non agricultural activities, and proportion of household having more than one members involved in off farm activities. Similarly, factors taken for sensitivity analysis were: Gini coefficient

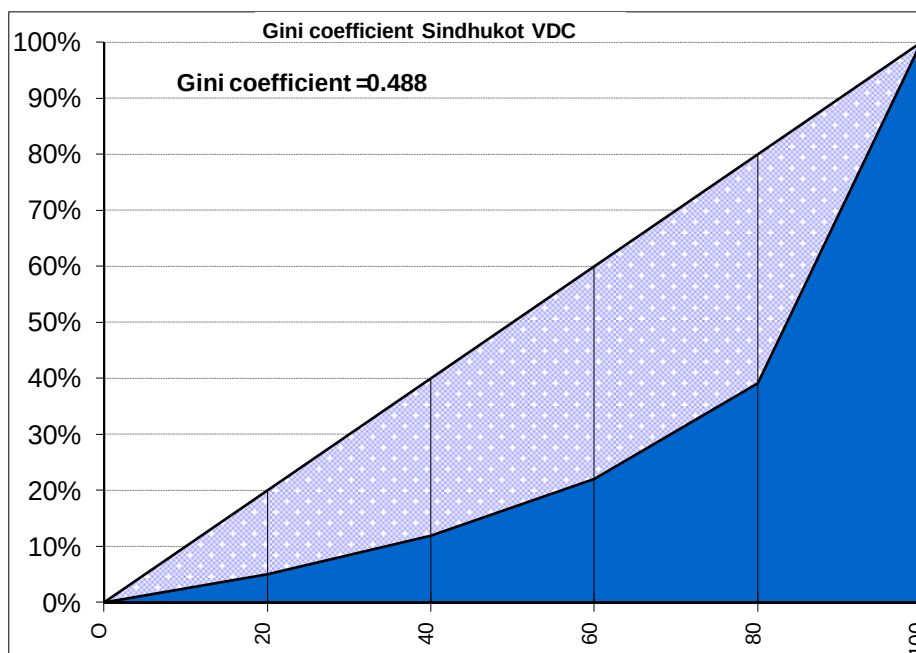

Fig.4. Income distribution in Sindhukot VDC

(Inequality index to measure the inequality in income), Proportion of household with food sufficiency for less than 6 months in a year, Proportion of household without piped drinking water facilities, Average time distance to health service (maximum of 75 minutes), Proportion of households with disabled people. Factors considered for calculating Exposure were: per household livestock damage, per household crop loss (in Muri), Total land loss in the community (in ropani), Total number of human loss in the community, and Total number of households under threat in the given community. The Vulnerability Index was calculated following the methodology developed by the Regional Climate Risk Reduction Project in the Himalayas. One innovative approach used in this study has been the incorporation of gini coefficient, the measure of income inequality.

### **2.1.2 Watershed management plan**

Ecologically, the upstream part of the watershed is covered by natural forests dominated by Conifers and Temperate Mixed hardwoods, while the middle and downstream section possess fairly dense subtropical mixed hardwoods and pine plantation along with a very thin belt of (about 200-500 m in width) hill Sal forests at the foot hills. Success of conservation and management of watershed largely depends on sustainable management of these biophysical resources along with the improvement in livelihood of the people of the watershed. The Sindhukhola watershed is ranked at critical category.

Some key factors leading to the need for comprehensive watershed plan are: increasing rural road networks without proper design is causing serious damages; inactiveness of most of the community forest user groups (CFUGs); need for improvement in the governance of local resources; increased access to market and the demand of forest products; increasing trend of soil erosion and drying of water sources; degradation of soil fertility with increased use of chemical fertilizers; increasing risks of climate change; opportunities created by road access to Kathmandu; crop raiding by wildlife; increasing role of women in resource management.

The overall objective watershed management plan is 'to enhance well being and resilience of communities to disasters risks and climate change through sustainable management of watershed resources in Sindhukhola watershed, Sindhupalchok, Nepal'. This broader objective has three specific objectives:

1. To promote sustainable management of bio-physical resources in Sindhukhola watershed for provision of goods and services;
2. To strengthen and diversify livelihood opportunities of local people with special focus to marginalized groups depending upon watershed resources
3. To strengthen capacity of local institutions to manage local resources for improving livelihood and respond to climate change with appropriate activities

Results related to these objectives are:

- 1.1 Improved forest resource management through capacitating forest user groups, and ensured equitable benefit sharing and good governance
- 1.2 Water resources of the watershed are identified and sustainably managed
- 1.3 Sustainable management of the land in accordance with land capability is achieved
- 2 Livelihood of the people improved through access to technical knowledge, services, and markets

3 Capacity of local level institutions strengthened for better resource management and improving livelihoods.

Many activities have been proposed to meet each of these objectives. While preparing the plan, emerging issues like recognition of ecosystem services, upstream downstream linkages, mainstreaming climate change, and demographic changes have been taken into account. A five year plan has been prepared with a total budget of Rs. 29,888,823. The watershed management plan also proposed a landuse plan with following major consideration. In the proposed landuse three agricultural zones: intensive agricultural zone, less intensive agricultural zone, plantation crops and grass zones have been identified primarily based on the slope. Tree plantation zones and no intervention zones also have been identified for better conservation of the watershed.

## **2.2 Create institutional basis for community based disaster risk management**

### **2.2.1 CBDRMC creation and institutionalization**

#### **1) 2.2.1.1 Create CBDRMCs**

The most vulnerable communities in the project area were identified based on the preliminary findings of MHVR assessment. The findings revealed that ward number 1, 8 and 9 of Bansbari VDC, ward number 1, 2, 3, 5, 6, and 7 of Sindhukot VDC, ward number 1, 2, 3, 4 and 6 of Thakani VDC, ward number 8 and 9 of Haibung VDC and ward no 6 and 7 of Bhotechaur VDC are at high risk regarding multiple hazards. Hence, the communities at high risk were sensitized on need of CBDRMC creation, result of MHVR assessment and facilitated to organize them in a committee. A total of 16 sensitization workshops were conducted in the project area in order to create 11 CBDRMCs. A total of 610 community people participated the workshop.

The main objective of creating CBDRMCs in the project area is to create institutional basis for DRM along with strengthening capacity of most vulnerable communities on DRM. Considering the result of MHVR assessment, a meeting was called inviting the people of most vulnerable communities in which needs of

Fig. CBDRMC creation meeting in Dhungechhap, Sindhukot

CBDRMC creation in the area was discussed. Role of local people on DRR and CCA were also illustrated on the same meeting. To make the CBDRMC most inclusive, at least 40% positions of executive board were reserved for women representative. People with disability, *janajatis* and other marginalized people were also given high priority to bring them in the executive committee of CBDRMC. Each CBDRMC consisted 9-15 members in executive committee depending on the number of household coverage. A total of 1225 households are covered by 15 CBDRMCs. Details is presented in table 5. The name list of executive members of CBDRMC is presented in annex 2.

\*Communities under RCRRP in the Himalayas

All the CBDRMCs of the project area are actively working in disaster risk management. Each CBDRMC conduct regular and occasional meeting in which they discuss about possible disaster in their area, preparedness and mitigation techniques of particular disaster. CBDRMCs are gradually institutionalizing and hold bank account as well. Detail is presented in given table (Table no. 5).

#### **2.2.1.2 Regular and follow up meetings of CBDRMCs**

The project staffs facilitated to organize regular and follow up meetings of the CBDRMCs.

These meetings were facilitated by social mobilizers of the respective area. The first meeting of CBDRMC's was focused on introduction of community based disaster risk management project. The participants of the meeting discussed about goal, objectives, implementation modality, focus area and site selection approach of the project. During the meeting, the community people showed strong commitment to support project implementation to get better

Photo: CBDRMC meeting in Bagaicha, Bansbari

impact on the disaster resiliency of target community. Participants were encouraged to put their view/feelings without any hesitation. The subsequent meetings were conducted on regular basis. The subsequent meetings mainly discussed concept and type of disaster, role of community people on disaster risk reduction, initiating mitigation measure to reduce vulnerability of community, and selection of participants for capacity strengthening and skill trainings. Approximately 75 regular and follow up meetings were conducted by 15 CBDRMCs during the project period (as of May 31, 2013).

#### **2.2.1.3 Statutes and registration in concerned VDC**

The project also facilitated to prepare an operational guideline (statute) of each CBDRMC. The statute was first drafted by project team, shared with executive board of CBDRMC and finalized by a meeting of community people. The sample statute is presented in annex 3. The CBDRMCs were finally registered with concerned VDC as well. The sample registration certificate is presented in annex 4. On the mean time, the project supported to print letter pad and stamp of the CBDRMCs.

#### **2.2.1.4 Bank account**

Aiming to institutionalize the CBDRMCs and keep their income/expense transparent, bank account of each CBDRMC was created in nearby bank (Sindhu Bikash Bank Ltd., Melamchi). The detail of bank account of each CBDRMC is presented in table 6.

**Table 6. Bank account details of CBDRMCs**

| S.N. | Name of CBDRMC              | Bank account no. | Account holders name and position                                                                                                                    |

\*Communities under RCRRP in the Himalayas

### 2.2.2 Local disaster risk management committee (LDRMC) creation and institutionalization

Local Disaster Risk Management Plan (LDRMP) Preparation guideline 2068 prepared by Ministry of Local Development of Nepal Government states that a local disaster risk management committee (LDRMC) shall be created to manage disaster risk at local level. Hence, following LDRMP guideline, LDRMCs in Bansbari, Sindhukot, Thakani, Haibung and Bhotechaur (one in each VDC) were created in first and second week of June (June 6-10, 2012). The workshop organized to prepare watershed management plan was utilized to create LDRMCs. A total of 245 people participated the LDRMC creation workshop (143 people of *Bahun/Chhetri* including 37 female, 11 *Dalit* with 6 female, 86 *Janajati* including 28 female and five others) (Participabt list is presented in annex 1). The LDRMC consists of seventeen members and chaired by VDC secretary as stipulated by LDRMP guideline. The name list of LDRMC member is presented in annex 5.

### 2.2.3 Eco DRR club creation and institutionalization:

A two days workshop was conducted to schedule school based activities including the schedule and modality of ECO DRR club creation. Hence, based on the guideline developed by the participants of the workshop (Annex 17), a total of 10 ECO DRR clubs were created in the project area. Among the 10 clubs, two were from RCRRP area whereas rest 8 represents the new area.

Photo: ECO DRR club members of Jalpadebi HSS, Bhotechaur

The students from grade 6 or above were allowed to represent in the executive committee. More than 2160 students are general members of ECO DRR Clubs (Details of ECO DRR Clubs is presented in table 7). To make gender balance, one male and one female student, were selected on consensus or by election from each classes. Hence, two students were selected from each class to represent in executive committee. At least two vital posts were assigned to ladies students while remaining seats were assigned on consensus among the selected students. The ECO DRR clubs were

sensitized on the importance and role of ECO DRR club on DRR and CCA. Name list of ECO DRR Club executive member is presented in annex-6a. For well functioning and institutionalization of ECO DRR clubs, support materials such as letter pad, stamp and stationary

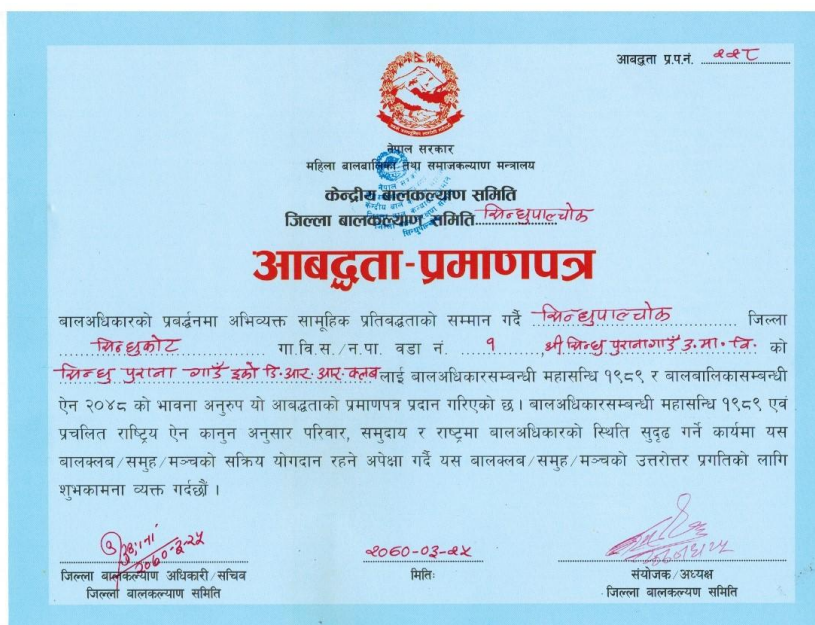

Photo: Registration certificate of Sindhupurana ECO DRR club

were provided to all the ECO DRR clubs of project area. The list of support materials is presented in annex 6b. The ECO DRR clubs were finally registered with District Child Welfare Committee.

**Table 7: Details of ECO DRR club creation**

| SN | School name and address                              | Date of ECO DRR club creation | Members of ECO DRR Club |             |             |

#### **Regular and follow up meetings of ECO DRR Clubs**

Regional Climate Risk Reduction Project (RCRRP) in the Himalayas had created four ECO DRR clubs, one in each following schools-

- Shree Janasudhar LSS, Bandegaun
- Samata Secondary School, Melamchi
- Jalpadevi HSS, Bansbari

- Mahakali SS, Bansbari

As the two schools Janasudhar LSS, Bandegaun and Samata SS, Melamchi fall outside Sindhukhola watershed, an understanding was reached between UNDP and CDEC management team not to implement project activities in these two schools. Hence ECO DRR clubs were not created in the schools outside Sindhukhola watershed. In Jalapadevi HSS and Mahakali SS, a refresher meeting was organized, in which members of ECO DRR Club, School Principal and focal teacher participated. The main aim of this meeting was to restructure the executive committee of ECO DRR clubs and inform them about school based activities of CBDRMP in Sindhupalchok. Immediately after the refresher meeting, both the schools restructured the executive committee of ECO DRR club. A total of 14 follow up meetings were organized in RCRRP created ECO DRR Clubs (Table 8).

**Table 8: Details of follow up meetings of RCRRP created ECO DRR clubs**

| Jalapadevi HSS, Bansbari-7 |                                                                         | Mahakali HSS, Bansbari-5/6 |                                                                                                                               | Remark |

## 2.3 Capacity strengthening of vulnerable community, local government institutions and ECO DRR clubs

### 2.3.1 Capacity strengthening of vulnerable community and local government institutions

Trainings are basic component to enhance the capacity of local people. Hence, aiming to strengthen the capacity of local people living in most vulnerable areas, a total of 18 trainings were organized during 14 months of the project period. The broad objective of the trainings were-

- to strengthen the capacity of local people in order to improve skill of local people on disaster risk reduction and
- to improve skill of local people in order to improve economic condition

Capacity strengthening trainings comprised- early warning system (EWS) establishment training, search and rescue training, first aid training and Local/Community based disaster risk management plan (LDRMP/CBDRMP) preparation training. Whereas skill development training comprised- vegetable production, non-timber forest product cultivation, production and processing training, business plan development training, and organizational management training.

#### 2.3.1.2 Disaster risk management training

##### a) Training on early warning system

Early warning system helps to notify people from possible disaster allowing them to warn/prepare people from possible disaster. Effective early warning system may reduce huge amount of human and property loss from possible disaster. Aiming to strengthen disaster management capacity of the local people, one training on early warning system was organized in project area. Initially, a three days training for 50 people was proposed in technical proposal

of community based disaster risk management project. Three days period is very short to provide in depth knowledge on the early warning system, hence, later it was realized that a five days training could be more effective to better prepare community on disaster risk management. Therefore, after thorough discussion with UNDP team, it was decided to provide five days training reducing the number of participants to 25 from 50. The EWS training was mainly focused on-

- the basic concept and the terminology related to disaster risk management
- the basic concept of community based early warning system
- the procedure of early warning system establishment
- the functions and use of hydro-metrological instruments such as rain-gauge, river-gauge and thermometer etc.
- the information flow/transmission mechanism during or before disaster

The project area Sindhukhola watershed is sub-watershed area of Indrawati watershed. Indrawati river meets Melamchi river at Melamchi bazaar whereas Sindhukhola river meets Indrawati river near to Bahunepati bazaar at downstream approximately 6 km far from Melamchi bazaar (Ref. Figure no. 1). Hence, a total of 30 (24 male and 6 female) participants including 4 SMS of CBDRMP were selected covering upstream and downstream

of Melamchi, Indrawati and Sindhukhola river. List of participants is presented in annex-7a.

Photo: Participants of EWS training keenly listening the lecture

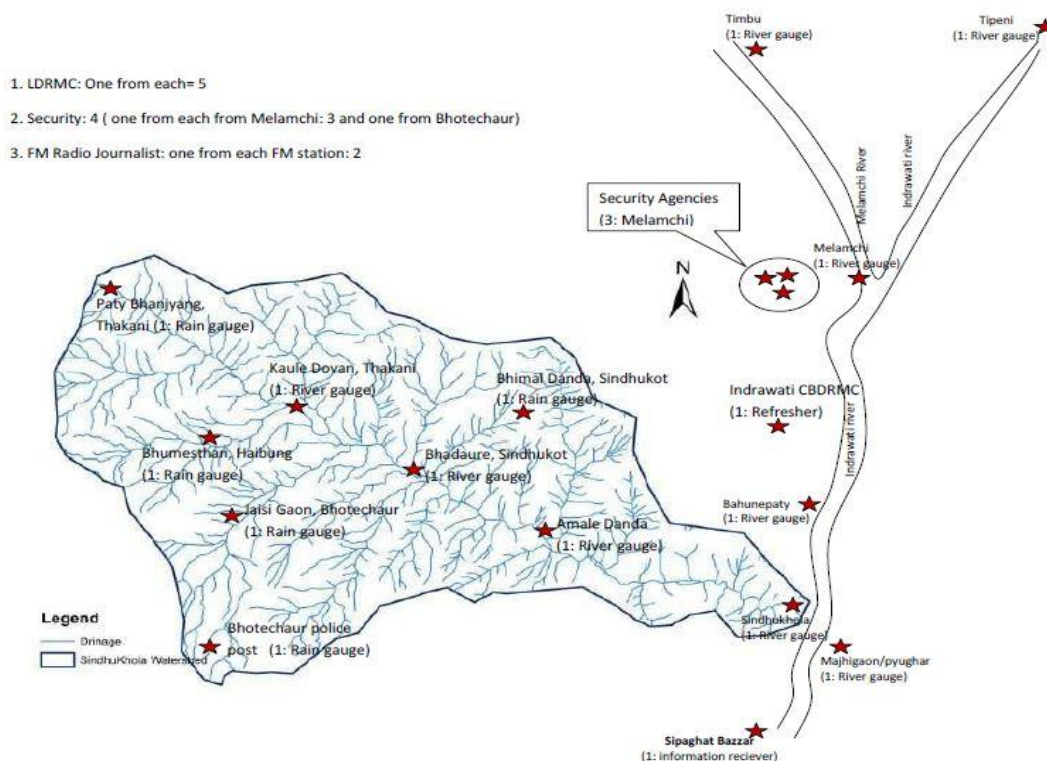

Fig. 5: Participant selection modality for EWS training

The training was mainly facilitated by Mr. Mahesh Gautam and Nirmal Chaudhary, who were trained by Practical Action, have long experience on training facilitation and in depth knowledge on community based early warning system. The training was conducted using lecture, participatory, interactive group discussion, video show, group work and field visit method.

An early warning system task force comprising local people of upstream and downstream of Indrawati, Melamchi and Sindhukhola rivers, security personnel and local FM stations was formed on the last day of the training programme. Name list of task force is presented in annex. 7b. Based on pre and post test training evaluation, it is assumed that almost all of the training objectives were fulfilled.

### **b) Search and rescue (SAR) training:**

Disaster management activities are divided into three categories- pre disaster, during disaster and post disaster activities. Though various

Photo: Participant of SAR training trying to practice rappelling method

types of disaster occur in the project area, most of the people are unaware about the basic concept of search and rescue technique. Hence, training on basic search and rescue techniques could be very much helpful to manage the disaster that may occur in the project area. Due to which, two trainings (3 days each) were organized in project area targeting to local security forces and community people. Search and rescue work requires physical force also; hence, following criteria were taken into consideration to select the participants-

- Young (Age between 20 to 60 yrs.)
- Physically strong
- Personnel retired from security forces
- Willing to work voluntarily

Participants were selected from both the new and old (RCRRP created) CBDRMCs, Local Disaster Risk Management Committee (LDRMC), and representatives from local security forces. Though security forces are consistently involved in SAR activities, they also lack basic training on basic life saving techniques. Hence, Nepal Army, Chautara made special request to include the army staffs in the SAR training as many as possible. So, we considered their request and a total of four army staffs (three From Chautara and one from Melamchi) were included in the training program. A total of 54 participants including 15 female were trained on SAR techniques, among which 33 people were from 14 CBDRMCs, 10 people from five LDRMCs, one from media, two from Nepal Police, one from Armed Police Force and four from Nepal army.

The training program was mainly facilitated by a team of Arm Police Force Personnel led by Arm Police Inspector. The team members were trained at Disaster Management Training Center (DMTC) of Arm Police Force, Kurintar.

Training methodologies were almost similar as those mentioned in Early Warning System training. The training course included concept and terminology related to disaster risk management, Hyogo framework, laws and by laws related to DRM, role of security

Photo: Participants of SAR training after the completing of training programme

agencies and local people on DRM and a brief introduction of Disaster Management Training Center- Kurintar, types and use of knots. As the training was designed for three days only, it was not possible to train participants on swimming method and water rescue techniques. Hence, swimming and water rescuing were covered by demonstration. Upper water river crossing, rappelling, climbing, stone walk and structure making process were also covered in the training session. Relevant videos were also played during and after the training session.

A total of 55 trainees including 16 females participated the training program (Annex 8). Based on pre and post test training evaluation, it is assumed that almost all of the training objectives were fulfilled.

### **c) First aid training**

During disaster, first aid can play a vital role to reduce loss of human lives and their health. Providing basic training on first aid concept, local people would be able to provide minimal health care to the victims during/after disaster. Following the guideline of Nepal Red Cross, two first aid trainings were organized at Hotel Melamchi Diamond, Dhakalkhare from September 19 to 24, 2013. Both the trainings were organized in close coordination with Nepal Red Cross Society, District Chapter, Sindhupalchok. The training was mainly focused on - the need and importance of first aid as emergency response to victim during disaster; use of first aid kits; theoretical knowledge and practical aspects of basic first aid techniques during emergency.

Photos: Glimpse of first aid training

Altogether 58 (25 male and 33 female) people participated the training programme. The list of participants is presented in annex 9. Training participants included three from each CBDRMCs and two from LDRMCs. Especially female were encouraged to attend the training. Both the

trainings were facilitated by the resource person from Nepal Red Cross Society, District Chapter, Sindhupalchok.

#### **d) Training on disaster mitigation techniques**

Landslides and flash floods are frequent events in the project area causing human and property losses. Due to unscientific farming system and outward facing terraces, a huge amount of soil loss occurs from farm land of project area. Hence, aiming to teach the method and practice of disaster mitigation techniques, a two days training course was designed for members of CBDRMCs focusing on watershed management. A total of four training courses were delivered to the members of CBDRMCs during the project period. The sessions were mainly focused on the-

- Basic concept of watershed management
- Low cost technology for preventing soil loss from farmland
- Basic concept and practical knowledge on disaster mitigation techniques particularly bioengineering techniques, protect agri-land from river cutting, on farm conservation, fruit plantation and bare land management

**Table 9: Community based disaster mitigation techniques date and venue**

| SN | Training date      | Duration | Venue                                          |
|----|--------------------|----------|------------------------------------------------|
| 1  | Dec. 2 and 3, 2012 | 2 days   | Bhotechaur Swasthya Sewa Samiti, Bhotechaur- 1 |
| 2  | Dec. 4 and 5, 2012 | 2 days   | Sindhukot-1, Community hall, Health post       |
| 3  | Dec. 5 and 6, 2012 | 2 days   | Thakani-1, Shree Krishna HSS, Rautgaon         |
| 4  | Dec. 8 and 9, 2012 | 2 days   | Bansbari-4, Dhakalkhahare                      |

The training program was organized in coordination with District Soil Conservation Office (DSCO), Sindhupalchok. Hence, major portion of the training course was facilitated by the expert from DSCO whereas those of DRM cycle, on farm conservation techniques and sloping agricultural land technology were facilitated by project team. A total of 142 trainees including 79 female participated the training program (Annex 10).

#### **e) LDRMP and CBDRMP preparation training**

Nepal is known as disaster hotspots as well as multi-hazard prone country in the world. Various studies have shown that, Nepal stands on 20<sup>th</sup> position in terms of multi-hazard in the world, 11<sup>th</sup> position in terms of a risk of an Earthquake, 30<sup>th</sup> position in terms of risk of water induced

hazards and 4<sup>th</sup> position in terms of effects of climate change. Earthquake, floods, landslide, fire, epidemic, avalanches, hailstorm, cold wave, hot wave are the major hazards in the country. Human and wildlife conflict are also one of the hazards in some of the districts of Nepal. As per the record of Home Ministry (2008), more than 420 incidents of disaster occurs in Nepal and around 1000 people are killed by different hazards. Billions of economic losses and thousand of family have been affected by the disasters. Nepal's fragile geological and geophysical structure, climate change, weak capacity to cope with disaster, poverty, over exploitation of natural resources, increase population, rapid urbanization with not following the building code and unsystematic land use plan are the major causes of disaster in Nepal.

Nepal government has signed on Hyogo Framework for Action (HFA, 2005-2015) which was held in Kobe, Japan in 2005. Nepal government has accelerated the disaster risk reduction activities in Nepal significantly after signing the HFA. Series of national, regional and district level workshops have been conducted on disaster risk reduction issues. In this context, Ministry of Home Affairs (MOHA) has developed and implemented National Strategy on Disaster Risk Management (NSDRM) in 2009. Nepal National Risk Reduction Consortium (NRRC) has formed for effective implementation of the flagship program. Within the framework of NSDRM, MOHA developed the Guidance Note on Disaster Preparedness and Response Planning in 2011. But the Guideline was focused only in disaster response. Almost 70 districts have prepared the disaster preparedness and response plan. The guidance note couldn't cover the mitigation and recovery part of the Disaster Risk Management (DRM) Cycle. It is focused on humanitarian response only. It couldn't address disaster preparedness activities into development process and sectoral approach of the government. Mainstreaming disaster into government program was not considered.

Therefore, in order to fulfill the gaps and mainstreaming disaster into development process, Ministry of Federal Affairs and Local Development (MoFALD) has developed the Local Disaster Risk Management Plan (LDRMP) preparation guideline. In order to develop comprehensive LDRMP, CBDRM project has taken initiatives to develop LDRMP in five VDCs namely Bansbari, Sindhukot, Thakani, Haibung and Bhotechaur of the Sindhupalchok district. As a part of preparing LDRMP in five VDCs mentioned above, LDRMP/CBDRMP preparation training was given to the members of five LDRMCs and 10 CBDRMCs.

Objectives of the training-

- Enhance basic understanding on Disaster Risk Reduction of the participants

- Strengthen skill on risk assessment process, tools and techniques
- Make aware on LDRMP/CBDRMP development process
- Develop LDRMP of Five VDCs and CBDRMP of 10 CBDRMCs

**Table 10: Training date and venue**

| SN | Training date    | Duration | Venue                     | Remarks         |
|----|------------------|----------|---------------------------|-----------------|
| 1  | Nov. 20-23, 2012 | 4 days   | Bansbari-4, Dhakalkhahare | CBDRMP training |
| 2  | Dec. 10-13, 2012 | 4 days   | Bansbari-4, Dhakalkhahare | LDRMP training  |

A total of 28 people including 7 female and 33 people including 1 female participated in CBDRMP and LDRMP preparation training respectively (Participants list is presented in annex 11). Based on pre and post test training evaluation, it is assumed that almost all of the training objectives were fulfilled.

### 2.3.1.3 Organization development training

All together 14 CBDRMCs (10 new and four during RCRRP period) were created in the project area. All the CBDRMCs are relatively new and lack basic skill of organizational management. Hence, organizational management training was given to the members of CBDRMCs aiming to develop and strengthen capacity of CBDRMCs. The training sessions were mainly focused on-

- the need, importance, role and responsibilities of the social organization.
- about the life cycle and growing stages of a social organization.
- the organizational vision, mission, goal, objectives and other essential areas of a social organization ( i.e. Nine essential area of the Social Institution)
- the concept of planning process, leadership development and the measures of efficiency test of the Social Development Organization.
- annual action plan for their institution development

The training was organized at Bansbari-4, Dhakalkhahare from 4 to 6 March 2013. A total of 37 participants (23 male and 14 female) got the training on organization development. Based on informal evaluation, it was assumed that all the

Photo: Participant of organization development training presenting the group work

objectives of the training were fulfilled. The participant list of organization development training is presented in annex 12.

#### **2.3.1.4 Skill training**

##### **a) Vegetable production training**

Disaster vulnerability of the community could be reduced by improving economic condition of the target people. Skill on vegetable farming may help to diversify and increase the livelihood opportunity to the rural poor. Aiming to strengthen income generation capacity of the local people, three vegetable production training were delivered to the people of vulnerable area. The training course was mainly focused on-

- Basic concept and importance of home gardening, off and regular season vegetable production
- Nursery management techniques for different vegetables
- The cultivation practices of various vegetables such as cauliflower, cabbage, bean, radish, and tomato
- The tomato production under plastic tunnel
- The insect, pest and disease management of vegetable

**Table 11: Training date and venue**

| SN | Training date    | Duration | Venue                     |
|----|------------------|----------|---------------------------|
| 1  | Aug. 23-25, 2012 | 3 days   | Bansbari-4, Dhakalkhahare |
| 2  | Aug. 26-28, 2012 | 3 days   | Bansbari-4, Dhakalkhahare |
| 3  | Aug. 29-31, 2012 | 3 days   | Bansbari-4, Dhakalkhahare |

The training program was organized in coordination with District Agriculture Development Office (DADO), Sindhupalchok. Hence, major portion of the training course was facilitated by the expert from DADO, whereas DRM cycle and some parts of vegetable production were facilitated by project team. Almost all of the training objectives were

Photo: Glimpse of vegetable farming training

fulfilled. A total of 77 including 39 female participated the training programme (Annex 13). A minikit of vegetable seeds was given to each participants at the end of the training program. At the end of the training, the participants expressed their commitment to apply in their farmland what they learned during the training programme.

#### **b) Non timber forest product cultivation, harvesting and processing training**

Sindhukhola watershed area is very potential for on farm and off farm business development. Due to wide range of climatic variations, various types of crops, fruit and non timber forest product can be grown in the area. *Lapsi* (*Cheospodias axullaris*), a non-timber forest product, is available abundantly in the area. As *Lapsi* is widely used for pickle, candy and various types of processed food making, three days *Lapsi* cultivation, harvesting and processing training was given to the *Lapsi* growing farmers of the watershed area. The training was mainly focused on the-

- Basic techniques of *Lapsi* cultivation
- Techniques of making various *Lapsi* products such as candy, pickle and khattu
- Prepare a business plan of *Lapsi* processing business

The training was organized at Bhotechaur bazaar of Bhotechaur VDC from 17-19 December, 2012. A total of 33 people including 28 female participated the training program. Detail participant list is presented in annex 14.

Photo: Glimpse of Lapsi processing training

#### **c) Business plan development and market planning (Value chain development) training**

A three days training was designed and delivered on business plan development and market planning. The training was mainly targeted to the farmers of watershed who are engaged in different sector of agriculture industry such as vegetable farming, cooperative and livestock

farming. The training was focused on value chain- concepts, steps, selection, analysis, competitiveness, constraints opportunity analysis and interventions design through lectures and practical exercises in a very participatory way. Value chain analysis basically focuses on seeking commercial viable solution for all the actors/stakeholders involved on it. It encourages the active involvement and strengthening of private sector so that the interventions could sustain even after the withdrawal of outside support. Value chain approach always emphasizes capacity enhancement of actors from conception to consumption of a product or service. The effectiveness and efficiency in service delivery of the actors in a value chain leads towards enhancing competitiveness and ultimately towards sustainability. The main objectives of the training were-

- To strengthen the capacities of local communities involved in various economic activities
- To provide the basic concept of value chain approaches, value chain steps like value chain selection, value chain analysis, competitiveness, constraints opportunity analysis and interventions design through

The training was organized at Bansbari-4, Dhakalkhahare from 25th to 27th December 2012. A total of 25 trainees including 14 female participated the training program. Detail participant list is presented in annex 15.

#### **2.3.1.5 Organize two simulation exercises**

Two simulation exercises were organized in project area aiming to improve level of preparedness, a more effective response, a safer environment for responders, and ultimately a better chance of saving lives of victims of disaster. For this purpose, an artificial scenario of a house collapse was created and the participants were

Photo: Glimpse of simulation exercise

assigned to evacuate the people trapped inside the collapsed house. All the trainees of Search and Rescue training participated the simulation exercise. At the end of the exercise it is anticipated that the participant gained the confidence, practical experience and decision-making

skills needed to successfully resolve real-life incidents. A total of 55 people (15 female and 40 male) participated the exercise.

#### **2.3.1.6 Support of search and rescue materials to local disaster risk management committees (LDRMCs)**

Search and rescue (SAR) materials provided by UNDP/CDRMP were given to concerned LDRMCs of five VDCs (Bansbari, Sindhukot, Thakani, Haibung and Bhotechaur). DDRC chairperson and CDO-Sindhupalchok in the presence of UNDP officials and other members of DDRC handovered the materials to the chairperson of the concerned LDRMCs.

Photo: Chief District Officer (CDO) handovering SAR materials to Secretary of Bhotechaur VDC

#### **Establish emergency fund**

As a part of emergency preparedness, emergency funds in five project VDCs namely Bansbari, Sindhukot, Thakani, Haibung and Bhotechaur are established. For this purpose, project contributed Rs. 30000.00 for each VDC whereas VDCs contributed Rs. 20000 to 75000 based on availability of fund (Details presented in table 12). For well functioning of the fund, an operational guideline is also prepared and endorsed by the concerned LDRMCs (Annex 16).

**Table 12. Details of emergency fund**

| S.N. | Name of LDRMC     | Bank name and address                          | Account holder's name   | Account no.   | Contribution (Rs) |        | Total (Rs.) |
|------|-------------------|------------------------------------------------|-------------------------|---------------|-------------------|--------|-------------|
|      |                   |                                                |                         |               | CBDRMP            | VDC    |             |
| 1    | <b>Bansbari</b>   | Nepal Bank Limited,<br>Melamchi, Sindhupalchok | Dhan Bahadur Giri       | 1690000126-01 | 30,000            | 75,000 | 105,000     |
|      |                   |                                                | Bishnu Prasad Gautam    |               |                   |        |             |
|      |                   |                                                | Chandika Nepal          |               |                   |        |             |
| 2    | <b>Sindhukot</b>  | Nepal Bank Limited,<br>Chautara, Sindhupalchok | Nirajan Pudasaini       | 057000518601  | 30,000            | 50,000 | 80,000      |
|      |                   |                                                | Kumar Prasad Khatriwada |               |                   |        |             |
|      |                   |                                                | Shiva Kumari Sigdel     |               |                   |        |             |
| 3    | <b>Thakani</b>    | Nepal Bank Limited,<br>Chautara, Sindhupalchok | Ram Chandra Gautam      | 057000518401  | 30,000            | 50,000 | 80,000      |
|      |                   |                                                | Ram Chandra Khanal      |               |                   |        |             |
|      |                   |                                                | Kumari Tamang           |               |                   |        |             |

## **2.3.2 Strengthening ECO DRR Clubs (School based activities):**

### **2.3.2.1. Background:**

Climate change has been a big threat since last few decades influencing disaster resiliency of community people with the consequence impact on livelihood and living conditions. Climate change is a prime cause for various types of disasters such as landslides, flash floods, intensive rainfall and etc. Researches on climate change have shown that people living in mountain and high hills are more vulnerable to climate change related disasters compared to those living in tropical and sub tropical region of the world. Though climate change related hazard are occurring in alarming rate, community people are still not sufficiently aware on climate change adaptation practices. As the children can understand new things more easily compared to the elder one, educating children on DRR/DRM might be particularly useful transferring DRM knowledge to the community people. On the other hand organizing various types of extracurricular activities on climate change adaptation/DRM may also strengthen the knowledge of children and school kids. Hence, aiming to strengthen knowledge on climate change adaptation and DRM of school children, Environment Conservation and Disaster Risk Reduction (ECO DRR) clubs were created and several extracurricular activities were conducted in 10 schools of the project area. The following steps were followed to accomplish school based activities-

- Workshop on scheduling school based activities
- Creation of ECO DRR clubs
- Conduction of extracurricular activities
- Registration of ECO DRR clubs in District Child Welfare Committee
- Establishment of linkage with concerned government line agencies

### **2.3.2.2. Workshop on scheduling school based CRMI activities**

Aiming to schedule extra-curricular activities focused on disaster risk management in academic calendar, a two day workshop was organized in project site before starting new academic session. The headmasters/principal/focal teacher of extracurricular activity and the resource person, Shree Jalpa Devi Higher Secondary School Resource Centre, Bhotechaur were invited to participate the workshop. There are 10 secondary/higher secondary schools in Sindhukhola watershed and teachers from all (10) schools participated the workshop. The workshop was mainly focused on preparation of guideline and calendar for extracurricular activities focused on DRM, awareness generation and sensitization on DRM and CCA. All participants were given ample opportunity to present their view on implementation modality of school based DRM program and need of DRM and CCA focused extracurricular activities (participant list is in annex

17). This helped to increase ownership among the stakeholders of the school based DRM activities.

The participants of the workshop provided input on following areas-

- Guideline for extracurricular activities- The participants actively involved to develop

Photo: Participants of extracurricular activities scheduling workshop

guideline for extracurricular activities focused on DRM and CCA. The participants also put their views and agreed to teach DRM and CCA related sessions as extracurricular activities for the students of class 6-10. Tentatively 25 classes were proposed for DRM and CCA related sessions.

- Implementation of extracurricular activities: All headmasters and resource person expressed their strong commitment to implement the extra curriculum guideline in their school. Resource person also agreed to monitor ECO DRR Club's activities in schools.
- Creation ECO DRR clubs: The meeting also decided to create ECO DRR Club in all secondary and higher secondary schools of Sindhukhola watershed area. The participants also developed operational guideline for ECO DRR clubs. The guideline consists the role and responsibility of ECO DRR clubs, structure and membership modality. Students from grade 6 to 12 were decided to be the general member of the ECO DRR club. Number of executive committee was decided to be 11 and 15 for secondary and higher secondary school respectively.
- The participants also prepared the calendar for DRM/CCA focused extracurricular activities.
- The participants also decided time and venue including responsibilities for inter school competition for DRM/CCA focused extracurricular activities.

### 2.3.2.3. Art competitions organized

As described above a two days workshop was organized aiming to schedule extracurricular activities focused on disaster risk management in schools of Sindhukhola watershed area. The participants of the workshop also decided the methodology and other procedural matters regarding the conduction of DRR and CCA focused extracurricular activities. One art competition

was organized in each school of watershed area. A total of 293 students from ten schools participated the intra-school art competition (Table 13).

**Table 13: Details of intra-school art competition**

| S.N. | School name                                          | Date of competition | Total no. of participants |
|------|------------------------------------------------------|---------------------|---------------------------|
| 1    | Shree Jalapa Devi HSS, Bansbari-7, Bahunepati        | June 1, 2012        | 34 (12 girls)             |
| 2    | Shree Mahakali SS, Bansbari-5, Giran Chaur           | June 11, 2012       | 30 (14 girls)             |
| 3    | Shree Kalika SS, Bansbari-3, Danda Gaon              | June 13, 2012       | 8 (1 girl)                |
| 4    | Shree Sindhu Puranagaon HSS, Sindhukot-1, Tar        | May 1, 2012         | 8 (all girls)             |
| 5    | Shree Krishna Higher SS, Thakani-1, Chhapeli         | May 23, 2012        | 26 (15 girls)             |
| 6    | Shree Thulo Thakani SS, Thakani-6, Paty Bhanjyang    |                     | 51 (28 girls)             |
| 7    | Shree Haibung Mahadevsthan SS, Haibung-7, Bhumesthan | May 25, 2012        | 15 (6 girls)              |
| 8    | Shree Jalpadevi Higher SS, Bhotechaur-7, Jaishi Gaon | May 25, 2012        | 78 (34 girls)             |
| 9    | Shree Saraswoti HSS, Bhotachaur-1, Bhotechaur        | June 7, 2012        | 17 (4 girls)              |
| 10   | Shree Setika Devi SS, Bhotechaur-2, Danda Gaon       | June 1, 2012        | 26 (5 girls)              |
|      | <b>Total</b>                                         |                     | 293 (136 girls)           |

Inter school art competition was organized immediately after the completion of intra-school competition. The winner of the intra-school art competition was allowed to sit on inter school art competition. The competition was organized in the theme "Environment and Disaster Risk Management" at Sindhupuranagoan HSS, Sindhukot. Ten best students (9 male and 1 female) from respective school participated the competition. An evaluation committee led by resource person of Jalpadevi HSS education resource center was formed to select the best art. Four students who got first, second, third and fourth position were awarded with painting materials. Mr. Indra Bahadur Lama, Sindhupuranagaon HSS secured the first position. Sudeep Chaulagain, Saraswati HSS, Bhotechaur-1, Arun Lama, Jalpadevi HSS, Bhotechaur-7 and Radhika B.K., Jalapadevi HSS, Bansbari-7 were in second, third and fourth position respectively. A total of 303 (total of intra and inter school competition) students (167 male and 136 female) participated the competition. The detail participant list is presented in annex 19a and 19b.

### 2.3.2.4. Quiz competition completed

The quiz competition was organized in two level- Intra school and inter school competition. At first, intra school competitions were organized in the schools of watershed area and the winner students were allowed to sit on inter school competition. The responsibility of organizing

interschool quiz competition was given to Saraswoti HSS, Bhotechaur. All schools of Sindhukhola watershed participated the interschool competition. Hence a total of 11 quiz competition were organized which includes inter and intra school competition. A total of 270 students (85 female and 185 male) participated the intra school whereas 30 students

Photo: Glimpse of interschool quiz competition

(20 male and 10 female) participated interschool quiz competition. Hence a total of 300 students involved in quiz completion. Detail of intra school quiz competition is presented in table 14. The participants list is presented in annex 20a and 20b.

**Table 14: Details of intra-school quiz competition**

| S.N. | School name                                          | Date of competition | Total no. of participants |

|      | <b>Total</b>                                         |                     |                           |

#### 2.3.2.5. Essay writing competition

Similar to art and quiz competition, essay competition was also organized in two level- intra and interschool competition. The methodology and other related procedure were as same as those described in art and quiz competition. Intra school competition was organized in all 10 secondary and higher secondary schools of Sindhukhola watershed while inter school competition was organized at Jalapadevi higher secondary school, Bansbari-7. Hence a total of 11 competition were organized during the project period. A total of 154 students (84 male and 70 female), among which 145 participated intra school whereas 9 students participated inter school essay competition. Detail of intra school competition is presented in table 15. The participant list is presented in annex 21a and 21b.

**Table 15: Details of intra school essay writing competition**

| S.N. | School name                                          | Date of competition | Total no. of participants |
|------|------------------------------------------------------|---------------------|---------------------------|
| 1    | Shree Jalapa Devi HSS, Bansbari-7, Bahunepati        | Feb 3, 2013         | 10 (6 girls)              |
| 2    | Shree Mahakali SS, Bansbari-5, Giran Chaur           | Feb 4, 2013         | 20 (8 girls)              |
| 3    | Shree Kalika SS, Bansbari-3, Danda Gaon              | Feb 3, 2013         | 11 (5 girls)              |
| 4    | Shree Sindhu Puranagaon HSS, Sindhukot-1, Tar        | Jan 1, 2013         | 4 (2 girls)               |
| 5    | Shree Krishna Higher SS, Thakani-1, Chhapeli         | June 8, 2012        | 42 (25 girls)             |
| 6    | Shree Thulo Thakani SS, Thakani-6, Paty Bhanjyang    | Jan 25, 2013        | 9 (1 girl)                |
| 7    | Shree Haibung Mahadevsthan SS, Haibung-7, Bhumesthan | Feb 10, 2013        | 18 (7 girls)              |
| 8    | Shree Jalpa Higher SS, Bhotechaur-7, Jaishi Gaon     | Nov 30, 2012        | 8 (5 girls)               |
| 9    | Shree Saraswoti HSS, Bhotachaur-1, Bhotechaur        | Feb 8, 2013         | 6 (2 girls)               |
| 10   | Shree Setika Devi SS, Bhotechaur-2, Danda Gaon       | Mar 8, 2013         | 17 (8 girls)              |

## 8. Speech competition

Similar to other competitions as mentioned above, speech competition was also organized in two level- intra and interschool competition. The methodology and other related procedures were same as those described in art and quiz competition. Intra school competition was organized in all 10 secondary and higher secondary schools of Sindhukhola watershed. Inter school speech competition was organized at Shree Krishna HSS, Thakani and Jalpadevi HSS, Bhotechaur in international day for disaster risk reduction (Oct. 12, 2012) and national earthquake safety day (Jan. 15, 2013) respectively. Though the target was 11 competitions, one more interschool competition was organized on earthquake safety day. Hence a total of 12 competitions were

organized during the project period (Details of speech competition in presented in table 16 and 17). Shree Krishna HSS, Thakani hosted first interschool speech competition on the occasion of International Day for Disaster Reduction. The theme was ' Role of students in disaster risk management' whereas Jalpadevi HSS. Bhotechaur hosted next inter

Photo: Participants of interschool speech competition delivering her speech.

school competition. The theme was 'Role of students in earthquake safety'. A total of 129 students (71 male and 58 female) participated the competition. The detail participants list is presented in annex 22a, 22b and 22c.

**Table 16: Details of intra school speech competition**

| S.N. | School name                                  | Date of competition | Total no. of participants |
|------|----------------------------------------------|---------------------|---------------------------|
| 1    | Shree Jalapadevi HSS, Bansbari-7, Bahunepati | Jan 4, 2013         | 10 (6 girls)              |
| 2    | Shree Mahakali SS, Bansbari-5, Giran Chaur   | Dec 10, 2013        | 7 (4 girls)               |

## 2.4 Awareness generation

### 2.4.1 Community sensitization workshop

Aiming to sensitize local community on disaster risk management 16 sensitization/interaction meetings were organized in the project area. Communities of nearby areas were called in a convenient place to discuss on the objectives mentioned above. Special attention was given to ensure the participation of women, elderly people, *janajatis* indigenous community, dalit, people

with disability (PWD), representative of political parties and local community based organizations (CBOs), marginalized and poor people. The meeting was focused to clarify the concept and roles of community people on DRM. Participants were encouraged to understand the concept of DRM and to raise the question without any hesitation. A total of 610 people from 5 VDCs participated the workshops. Out of 641 people, 341 people represented from *Chhetri/Bahun*, 40 people were from *dalit*, 259 people from *janajati* and one people of other catagories (*giri/puri/bharati/Madeshi*) (Figure no. 6 and Table 18). Details of participants is presented in annex 23. The interaction workshop was very much helpful to create foundation for CBDRMP implementation.

#### **2.4.2 Media sensitization workshop:**

As a part of CDRMP initiatives, a media sensitization was one organized in July, 2012 at Charikot Dolakha. A total of 45 people among which 16 journalists from Sindhupalchok district participated the workshop. The objectives of the workshop were-

- To enhance capacity of media personnel on issues of climate change induced disaster and its possible reduction through media.

## 1. Produce posters

500 poster containing DRM messages were produced and distributed to the different stakeholders such as schools, NGOs/CBOs, communities and government line agencies. Best four arts selected from inter school art competition and two photographs with suitable caption are kept in the poster.

Fig.7. Poster containing DRM messages

## 2. Produce t-shirts, ball pen and notebook

As a part of production of IEC materials, 427 t-shirts, 1800 note book and 1300 ball pen containing disaster risk management messages were produced and distributed to the stakeholders of the project. Ball pen and notebooks were mostly used in trainings and workshops whereas t-shirts were distributed to local, district level and national level stakeholders.

Photo: T-shirt with DRR message

Photo: Ball pen with project name

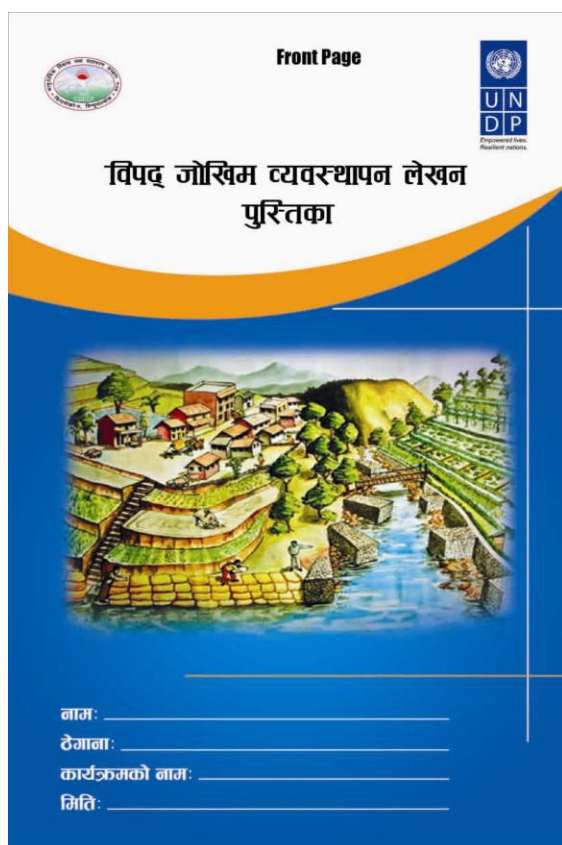

Photo: Cover page of notebook

### 3. Installation of hazard map in project VDCs

Flex board containing hazard map are installed in five project VDCs (One in each VDC). The hazard map contains location of different hazard occurrences and vulnerable area of the VDC. The location of flex of hazard map installed is presented in table no. 19.

**Table 19: Location of flex board installed in different VDCs**

| S.N. | VDC        | Location of flex board installed | Remarks |
|------|------------|----------------------------------|---------|
| 1    | Bansbari   | Bansbari-7, Bahunepati           |         |
| 2    | Sindhukot  | Sindhukot-7, Bhadaure            |         |
| 3    | Thakani    | Thakani-3, Piple                 |         |
| 4    | Haibung    | Haibung-7, Mahadevsthan          |         |
| 5    | Bhotechaur | Bhotechaur-1, Bhotechaur bazar   |         |

#### 2.4.4 DRR issues in national media

The project has been working in close coordination with media personnel. An informal discussion was done with the media personnel to raise the DRM issues in national and local level. During media sensitization workshop, the media personnel were agreed to put DRM in their priority and

publish/broadcast the DRM focussed news regularly. As a result, a total of 47 news/issues were published/broadcasted in the local and national level media. Details is presented in table no. 20.

**Table 20: Summary table of number of issues/news published in different media**

| S.N. | Media type                   | News/issues published/broadcasted | Remarks                                               |
|------|------------------------------|-----------------------------------|-------------------------------------------------------|
| 1    | National level printed media | 9                                 | Nagarik, Republica, Annapurna post and Samachar daily |
| 2    | National level television    | 3                                 | Kantipur television and AVnews                        |
| 3    | Local level printed media    | 20                                | Different local printed media                         |
| 4    | Local level FM               | 15                                | Broadcasted by Sindhu, Nomobuddha and Prime FM        |

## प्रकोप व्यवस्थापनमा समुदायको चासो

विपद् अर्थात प्रकोप बाजा बजाएर हल्ला गर्दै आइँदै, कौतिले कैलासको कलालले विपद् पर्छ ? प्रकोपले दुख दिन ? कसैले सुत्को सम्पत्तिको हरेर ? र पनि पछिल्लो समय सामुहिक कार्यबाट भने प्रकोपको न्युनिकरण तथा सह व्यवस्थापन गर्न सकिने बित्ता बढेको छ । यकीनी - र एउटा गाउँका आँखैले धापाको कथन हो यो ।

जिल्लाको पश्चिमी भेगमा पर्ने सिन्धुखोला जलाधार क्षेत्रको बहु प्रकोप संकटाग्रस्त बोल्लामा विपद् जोखिम व्यवस्थापन कार्यक्रममा लागेका गाउँबासीले धापा जस्तै स्थानीयमा सामुहिक बुट्टामा विपद्बाट बच्न सकिने आत्मविश्वास बढेको छ । यो जलाधार क्षेत्रमा पर्ने बोल्लामा, सिन्धुखोला, धकनी, हेडुङ र भोटेचौरका बासिन्दा सामुहिक विचार पुर्वाग्रह सके समुदायले विपद् जोखिम व्यवस्थापन गर्न सकिने बताउँछन् ।

समुदाय विकास तथा वतावरण संरक्षण मन्त्रालय सञ्चालित समुदायमा आधारित विपद् जोखिम व्यवस्थापन परियोजनाले गरेको यस सम्बन्धि चेतना अभिवृद्धि जस्तै उनीहरू गाउँमा हुने होक विकास निर्माणका कार्य सञ्चालन गर्दा विपद् जोखिम व्यवस्थापनका दृष्टिकोणले स्थायीतर्फ पर्मा जोड दिन पातेका छन् ।

प्राकृतिक तथा मानव सृजित प्रकोपको सामना गर्नका लागि जनचेतना जगाउनुका साथै प्रकोप पूर्व तयारीका कार्यमा अग्रसर गराउन यस क्षेत्रका समुदाय लागेका छन् । यो जलाधार क्षेत्रका १० वटा समुदायमा आधारित विपद् जोखिम व्यवस्थापन समिति र गाविस तहको स्थानीय विपद् जोखिम व्यवस्थापन समितिका साथै गाविस तथा उच्चमाथिमा रहेका हकी डिआरआरकास्वाम्यार्थन सो अभियानलाई सघाउन तल्लीन भएका हुन् । परियोजनाले सञ्चालन गरेको यस सम्बन्धी चेतनामूलक कार्यक्रमबाट परम्परागत धारणा परिवर्तन गएको उनीहरूको भनाई छ ।

विपद् जोखिम व्यवस्थापनका विषयमा समुदायलाई प्रभावकारी जानकारी र चेतना फैलाउन परियोजनाको सहजीकरणमा नेपाल सरकार संघीय मामिला तथा स्थानीय विकास मन्त्रालयको स्थानीय विपद् जोखिम व्यवस्थापन योजना तर्जुमा निर्देशिका २०६४ अनुसार समिति गठन भएका हुन् । परियोजनाले यो जलाधार क्षेत्रको बहुप्रकोप संकटाग्रस्तता लक्षात राखी तत्कालीन स्थानीय प्रायः सुभाषका आधारमा स्वस्थान संकटाग्रस्तता १० स्थानमा समुदायमा आधारित विपद् जोखिम व्यवस्थापन समिति गठन गरेको जनाएको छ ।

विपद् जोखिम व्यवस्थापन दिगो विकाससँग प्रत्यक्ष संलग्न गराउने विषय भएकोले यसको विस्तारण नगरी गति नै भौतिक पुर्वाधारका विकास कार्यले विनासको आवृत्ति बढाउन सक्ने हुँदा विकास निर्माणका कार्यमा यसलाई आत्मसात गर्ने प्रयत्नको बालनी गरीएको छ । स्थानीय विपद् जोखिम व्यवस्थापन समितिका अध्यक्ष समेत रहेका धकनी/हेडुङका गाविस सचिव रामचन्द्र गौतमले बताए । प्रकृतिक तथा मानवीय कारणले विपद्जन्य संकटाग्रस्तता र जोखिम निम्त्याउने बढ्दै गएकोले यसको व्यवस्थापन कार्य दिगो प्राथमिकतामाथि हेनुपर्ने

उनको ठाम्पाई छ ।

गाविसका सबै जसो बोल्लामा सडक निर्माण गर्ने प्रयत्नलाई लक्ष्य गर्दै भोटेचौर ६ र ७ का बोल्लामा समेटेर गठन भएको जैसीगाउँ सुबलछाप समुदायमा आधारित विपद् जोखिम व्यवस्थापन समितिका अध्यक्ष मित्रप्रसाद खतिवडाले भने - अहिलेसम्म सडक खनिएको हुने जोखिमका बारे कसैले लेखेजोखा गरीन । लामो समय देखि विभिन्न उपभोक्ता समितिको नेतृत्व गर्दै विकास निर्माण कार्यमा सक्रिय खतिवडाले विगतलाई स्मरण गर्दै धेरै - पाँच लाख बजेटमा सडक खुन्दा पाँच हजारको मात्र किन नहोस, सडकको दायाँ बायाँ घाँसको बिउ छर्दा प्रकोप व्यवस्थापन हुने रहेछ तर त्यति कुठामा पनि हाम्रो ध्यान पुग्न सकेको रहेछ ।

स्थानीय श्रोत र साधनको परिचालनबाट विपद् जोखिम कम गर्नका लागि विभिन्न उपाय अवलम्बन गर्ने सकिने रहेछ । यकीनीका राजबन्दा खनात बताउँछन् । यकीनी-२ र ३ का बोल्लामा समेटेर गठन गरेको गिवपुरी समुदायमा आधारित विपद् जोखिम व्यवस्थापन समितिका अध्यक्ष खनातले परियोजनाले स्थानीय श्रोत र साधनको पहिचान र परिचालन गरी स्थानीय समुदायबाट नै प्रकोपको सामना गर्न सकिने क्षमता अभिवृद्धिमा टेवा पुर्‍याएको बताए ।

परियोजनाको प्राथमिक सहयोगमा ती समुदायको सामुदायिक विपद् जोखिम पूर्व तयारी तथा प्रतिकार्य योजना निर्माण भएका छन् । योजना तर्जुमाका सक्रिय हेडुङको जनाका एकजनाले समुदायले प्रकोप पूर्व तयारी गर्ने गतिविधिहरू रोकथाम, न्युनिकरण र पूर्वतयारी तथा प्रकोप पछि संशोधन गर्ने गतिविधि खोज, उद्धार तथा राहत, पुर्वाधारमा र पुर्ननिर्माणको कुरा योजनामा समेटिएको बताउँछन् । १० वटा समुदायको योजनासँगै ५ गाविसको स्थानीय विपद् व्यवस्थापन योजना तयार गरेको छ । साथै परियोजनाले सिन्धुखोला जलाधार व्यवस्थापन योजना पनि बनाएको छ । जिल्लास्थित संस्थाका बाला निकायहरू जिल्ला भू-संरक्षण, वन, कृषि लगायत कार्यालयको प्रत्यक्ष संलग्नतामा बनेको यो योजना बाँड, पहिरो जस्ता प्रकोपको न्युनिकरण गर्न, जोखिमयुक्त स्थानमा ताराजाली बाट टक्कन गर्न, बुझारोपण गर्न, गड्डा सुधार गर्न, बढि भिरालावारीमा उपयुक्त खालको फलफूलको छेती गर्न, जग्गालाई ढाक्ने किसिमका बाली लगाउन तथा संरक्षण क्षेत्रलाई बढावा दिने जस्ता कुरा उल्लेख गरिएको छ ।

जलाधार योजना निर्माण पछि यो क्षेत्रमा सम्बन्धित निकायहरूको चासो समेत बढेको छ । उनीहरूले प्राथमिकताका साथ काम थाल्ने बताएका छन् । जिल्ला भू-संरक्षण, आर्थिक, कृषिप्रसाद चिसिले भू-क्षय र पहिरो नियन्त्रणका लागि समुदाय तथा गाविस तह र जलाधार योजनामा उल्लेखित कार्यक्रम प्राकृतिक र सामुदायिक श्रोतहरूको समुचित संरक्षण, परिचालन तथा व्यवस्थापन गरी योजनाधार क्षेत्रमा प्राथमिकताकासाथ काम थालिसकेका बताए । समुदायसँग मात्र हेन प्रकोप व्यवस्थापनका विषयमा यो जलाधार क्षेत्रमा रहेका १० वटा गाविस तथा उच्चमाथिमा वतावरण संरक्षण तथा विपद् जोखिम न्युनिकरण (डिआरआर) क्लव गठन भएर यस सम्बन्धी चेतना अभिवृद्धि र पेशी कार्यक्रमका साथै चिक्कला, हाँचौँ जगा, निक्कन लेखन, वस्तुवृत्तता जस्ता प्रकोप सम्बन्धी कुराकानीमा सक्रियता प्रएका छन् ।

सुपरटुडीलाई परियोजना क्षेत्रका यी पाँच गाविसका समता अभिवृद्धिका लागि आवश्यक जीवन रक्षा सामग्री उपलब्ध गराएको छ । स्ट्रेचर, रिपल, लाहकन्याउट, डेमेन्सी लाट, साबेल, रिक लापनका जीवन रक्षा र प्राथमिक उपचारका सामग्रीको प्रयोगबाट विपद् प्रतिकार्यमा स्थानीय क्षमता बढि विपद् उत्पन्नशिल समाजको स्थानलेमा सहयोग पुगे अझा रहेको बिसारी गाविस सचिव धनबहादुर गिरीले बताए ।

यी पाँच गाविसले बार्षिक योजना तथा कार्यक्रमबाट विपद् जोखिम व्यवस्थापनमा जनेट विनियोजन गरी प्रकोप व्यवस्थापन आर्कस्मिक कोषको स्थापना गरेका छन् । प्रकोपमा परेका व्यक्तिलाई तत्काल राहत र उद्धार उपलब्ध गराउन परियोजनाको सहजीकरणमा गाविसमा कोषको स्थापना भएको हो । कोषका लागि गाविसले २० हजार देखि ७५ हजारसम्म रकम जम्मा गरेका छन् । परियोजना संयोजक डा. पुष्पराज पौडेलका अनुसार बिसारीले ७५ हजार, धकनी र सिन्धुखोला ५०/५० हजार, हेडुङले ३० हजार र भोटेचौरले २० हजार कोषमा जम्मा गरेका छन् । परियोजनाले उक्त कोषमा ३०/१० हजारका दरमा रकम परिचालन गर्ने योजना छ । पौडेलले भने । यी गाविसमा यो कोष सञ्चालन निर्देशिका तयार भए कार्यान्वयनमा रहेको छ ।

सुपरटुडी, बृहत विपद् जोखिम व्यवस्थापन कार्यक्रमका आयोजना अभिप्रेत विपद् जोखिम व्यवस्थापन समन्वयी स्थानीय समुदायको क्षमता अभिवृद्धि गर्न सकेनन्तुलक कार्यक्रम सञ्चालनले समुदायमा आधारित विपद् जोखिम व्यवस्थापनको पहलमा टेवा पुगेको विचारमा व्यक्त गरे ।

### जोखिम व्यवस्थापनमा पहल

दिपाक केसी  
आयोजना अधिकृत, सुपरटुडी  
बृहत्तर विपद् जोखिम व्यवस्थापन कार्यक्रम

नेपाल भौगोलिक तथा जलवायुजन्य प्रकोपबाट उच्च जोखिममा रहेको छ । त्यसमा पनि नेपालको प्रकोप जोखिम तथ्य भएका जिल्लाहरूको वाकिलामा सिन्धुखोला जलाधार प्राकृतिक विविधता र जैविकताले जोड धनी छ यसको कमजोर धरातलले स्वस्थ र गतिशील भू-गर्भीय कारण त्यसकै नाजुक भौगोलिक अवस्थामा छ । त्यसैले यस जिल्लाको यो जलाधार परियोजना क्षेत्रमा छुनै भएको हो ।

पुल रूपमा प्रकोप घटनापछि सञ्चालन गरिने राहत उद्धार र पुर्नस्थापना जस्ता तथ्यवादी पद्धतीको वडलामा प्रकोपको रोकथाम, पूर्वतयारी तथा जोखिम न्युनिकरण कार्यक्रमहरूलाई सञ्चालन गर्न सहयोग र अभिप्रेत गरेको छ । समुदायलाई कसरी प्रकोप व्यवस्थापन न्युनिकरण गर्न सकिन्छ भन्ने बारे जनचेतना जगाए त्यसबाट जोखिम सक्ने तथा समुदायले विपद्को सामना गर्न सक्ने क्षमता अभिवृद्धि गर्ने उद्देश्यले परियोजना आएकोले समुदायमा आधारित विपद् जोखिम व्यवस्थापनमा लागि टेवा पुगेको विकास गर्न सकिन्छ ।

### विपद् उत्थानशील समाज बनाउन सहयोग

डा. पुष्पराज पौडेल  
परियोजना संयोजक, समुदायमा आधारित विपद् जोखिम व्यवस्थापन परियोजना

वर्षौँ बाढी, पहिरो, आगबुझी, महामारी, भूकम्प, चट्याङ, हावाहुरीलगायतका प्रकोपका कारण जनघनको दुर्ला खीट हुने गर्दछ । यसो हुनुको पछाडि भौगोलिक स्थिति एउटा कारण हो भने समुदायमा प्रकोपको सामना गर्ने क्षमता तथा जनचेतना अभाव पनि अर्को कारक तत्वको रूपमा रहेको छ । यस्ता प्राकृतिकलागत मानव सृजित प्रकोपको सामना गर्नका लागि समुदायसकृपा जनचेतना जगाउनुका साथै समुदायलाई प्रकोप पूर्व तयारीका कार्यमा अग्रसर गराउनुपर्ने हुन्छ । यसका लागि विपद् जोखिम व्यवस्थापन सम्बन्धी स्थानीय समुदायको क्षमता अभिवृद्धि गर्न सचेतनामूलक कार्यक्रम सञ्चालन गरेका छौ ।

गाविस तथा समुदाय तथ्या विपद् जोखिम व्यवस्थापन समिति र विचारलेमा हकी डीआरआर क्लव गठन भई परियोजना छन् । यस्ता समिति र क्लव सम्बन्धित संस्थाको विकासमा आबद्ध भई निजीहरूको सहभाग्यता अपात तयार भएको छ । उनीहरूले विपद् पूर्व तयारी तथा प्रतिकार्य योजना निर्माण गरी निशित रूपमा बच भएका छन् । समुदायमा आधारित विपद् जोखिम कम गर्ने गतिविधि उपलब्ध जस्तै पूर्व सूचना प्रणाली, खोज तथा उद्धार प्राथमिक उपचार अल्पिकरण तालीका, योजना तर्जुमाजस्ता तालिमहरूबाट समुदायको चेतनासतमा पछिल्लो र अहिलेका प्रकृ भएकै अन्तर्गत हुन पातेको छ । विकास कार्यमा विपद् जोखिम न्युनिकरणलाई मुख्यवर्गीकरण गर्न थालिएको छ । उनीहरूले विपद् व्यवस्थापन सम्बन्धी संरक्षण राख्ने संरक्षी तथा गैरसरकारी संस्थासँग सहयोग हुन पातेको छ । यस्ता हेतौ परियोजनाको सहजीकरणले विपद् उत्थानशील समाज बनाउन सहयोग पुर्‍याइरहेका छौ ।

## विपद् रोक्न गाउँले तयार

धुव बंगाल, सिन्धुपाल्चोक

भनिन्छ, विपद् अर्थात प्रकोप बाजा बजाएर आउँदैन। आकस्मिक रूपमा निम्तिने प्रकोपले जनघन क्षति पुऱ्याउँछ। तर, थकनी-१ राउत गाउँका अनिलकुमार थापालाई यस्तो लाग्दैन। उनी भन्छन्, 'खेतपाती र विकास निर्माणमा ध्यान दिए मात्रै विपद् धेरै हदसम्म रोक्न सकिन्छ।'

मानवीय दहनले प्रकोपलाई सघाइरहेको तर्क गर्ने उनले विपद्बारे राम्रो जानकारी राख्न थालेका छन्। '५ लाखको मोटरबाटो खन्दा सडकको दायो-बायो ५ हजारको घाँसको बीउ छर्दा मात्रै पनि प्रकोप व्यवस्थापन गर्न सकिने रहेछ,' प्राकृतिक र मानव सिर्जित प्रकोपबारे थाहा पाउन थालेका उनले भने।

थापा उदाहरण मात्र हुन्, सिन्धुखोला जलाधार क्षेत्र अन्तर्गत पाँच गाविसका बासिन्दा विपद् जोखिम व्यवस्थापन मामिलामा जानकार बनेका छन्। सामूहिक विचार पुऱ्याउन सके प्रकोप नियन्त्रण गर्न सकिने मान्यता राख्ने उनीहरूले जोखिम व्यवस्थापनका दृष्टिबाट गाउँमा विकास, निर्माणका काम सञ्चालन गर्न थालेका छन्। गाउँमा समुदायमा आधारित विपद् जोखिम व्यवस्थापन परियोजना सञ्चालनमा आएपछि गाउँले यसबारे सचेत बनेका हुन्।

परियोजनाले सञ्चालन गर्ने हरेक जनचेतनामूलक कार्यक्रममा सरिक जलाधार क्षेत्रका बाँसबारी, सिन्धुकोट, थकनी, हैबुङ र भोटेचौरका बासिन्दा प्रकोप व्यवस्थापन अभियानमा होमिएका छन्। समुदायमा आधारित १० वटा विपद् व्यवस्थापन समितिमा गाउँले आवद्ध छन्।

युएनडिपी वृहत्तर विपद् जोखिम व्यवस्थापन कार्यक्रमको सहयोगमा सामुदायिक विकास तथा वातावरण संरक्षण मञ्चले डेढ वर्षदेखि परियोजना सञ्चालनमा आएपछि विपत्तिबारे स्थानीय चनाखो हुन थालेका हुन्।

जलाधार क्षेत्रमा रहेका १० मावि र उच्च माविमा वातावरण संरक्षण तथा विपद् जोखिम न्यूनिकरण क्लव (इकोडिआरआर) समेत गठन गरी विद्यार्थीलाई समेत

परिचालन गरिएको छ। चित्रकला, हाजिरी जवाफ, लेखन, वक्तृत्वकलाका माध्यमले विद्यार्थी प्रकोप व्यवस्थापनमा क्रियाशिल छन्। गाउँले विपद् रोकथामका निम्ति तयारी हालतमा छन्। चेतनामूलक कार्यक्रम र उद्धार तालिमसमेत दिएको परियोजनाले जलाधार क्षेत्रमा हाते माइक, हेडलाइट, लाइफ ज्याकेट, स्टेचर, रबर म्याट्रेस लगायत २३ प्रकार उद्धार सामग्री उपलब्ध गराएको छ।

परियोजना संयोजक डा. पुष्पराज पौडेलले भविष्यमा आउने प्रकोप व्यवस्थापनका जलाधार क्षेत्रका पाँच गाविसमा आकस्मिक कोष समेत स्थापना गरिएको छ। वार्षिक योजना तथा कार्यक्रमबाट विनियोजन गरी स्थापना गरिएको कोषमा गाविसले २०-७५ हजार रूपैयाँ जम्मा गरेका छन्। बाँसबारीले ७५, थकनी, सिन्धुकोटले ५०/५०, हैबुङले ३० र भोटेचौरले २० हजार रूपैयाँको आकस्मिक कोष स्थापना गरेका छन्। 'कोषलाई दीगो बनाउन परियोजनाले ३० हजारका दरले रकम थपिदिएको छ,' पौडेलले भने।

स्थानीय, सरोकारवाला र विज्ञको सहयोगमा १० वटा समुदाय र पाँच गाविसको विपद् व्यवस्थापन योजनासहित जलाधार योजना व्यवस्थापन योजना पनि निर्माण गरी कार्यान्वयनमा ल्याइएको छ। योजनामा बाढीपिहिरो जस्ता प्रकोप न्यूनिकरण गर्न जोखिमयुक्त स्थानमा तारजाली लगाएर तटबन्ध निर्माण गर्न, वृक्षारोपण, गह्रा सुधार गर्न, भिरोलो जमिनमा उपयुक्त फलफूल खेती गर्न जमिन ढाक्ने गरी बाली लगाउन र संरक्षण खेतीलाई बढावा गर्न सुझाइएको छ।

युएनडिपीकै सहयोगमा सिन्धुपाल्चोकमा जिल्ला आकस्मिक कार्यसञ्चालन केन्द्र समेत सञ्चालनमा ल्याइएको छ। हाललाई प्रशासन कार्यालयकै एउटा कक्षबाट यसै महिनाबाट सञ्चालनमा ल्याइएको केन्द्रमा ४३ लाख रूपैयाँ बराबरका लाइफ ज्याकेट, हेलमेट, बुट, सावेल, खन्ती, म्याट, बाल्टी लगायत उद्धार सामग्रीमा छन्। युनडिपीले नै उद्धार सामग्री सहयोग गरेको हो। प्रकोपका दृष्टिले सिन्धुपाल्चोकलाई जोखिमपूर्ण जिल्ला मानिन्छ।

#### **4. 15 episodes of DRR programme**

Aiming to sensitize communities on DRR, a radio programme named “Prakop Bebasthapan” (Disaster Management) was produced and broadcasted during the project period. For this purpose, an agreement was done with Sindhu F.M. Sindhupalchok to produce and broadcast at least 15 episodes of DRR programme. The FM station produced the programme in coordination with project team and broadcasted in every Tuesday starting from 7.00 pm for 30 minutes.

#### **5. Mass rallies**

The "world environment day" was selected for mass campaigning. UN Environment Programme had announced to celebrate World Environment Day- June 5, 2012 with the theme "Green Economy: Does it include you?". Hence, the slogan for mass campaigning was selected the same as decided by UN. Saraswoti HSS and Sri Krishna HSS were selected for mass campaigning. The project supported on printing of playcards and banner while ECO DRR Clubs were given duty to do the mass rally. Before starting the rally, the project team and the focal teacher/principal gave a short speech about the importance of environment day and reason behind the conducting the rally. Students of class six or above participated the program. The students with playcards and banner containing DRR and CCA message started from school and walked about 2-3 kilometer of nearby village/settlement. Approximately 400 students participated the rally.

Photo: Students of Saraswoti HSS, Bhotechaur participating in mass rally in world environment day.

#### **6. Celebration of environment and DRM related days:**

To sensitize and aware the community, students and local stakeholders on environment/disaster risk management, world environment day (June 5), international day for disaster risk reduction (October 12) and national earthquake safety day (January 15) were celebrated with different programs. Except in June 5, all the members of DDRC were present in the programs.

**Table 21: Details of celebration of environment related days**

| S.N. | Program                                                    | Activities                                                                                  | Venue                                                  | Chief guest                       |

## 2.5 Support small mitigation activities

### 1. Landslide treatment

During watershed management plan preparation workshop, communities were requested to prioritize at least four landslides in each VDC where people are in need of immediate support. Based on the prioritization of the community during watershed management plan preparation workshop and resource availability, five landslides were selected for stabilization

(Table.22). As the purpose was to use low cost and sustainable technology, bioengineering method was used for the purpose. For this work, gabion box and planting materials were provided by the the project whereas the beneficiaries contributed on unskilled labor and transportation of materials from road head to the site of landslide. Details of landslide treatment is presented in Table.1.

Small support may matter a lot for community people (Photo: Landslide treatment at Sindhukot)

**Table 22. Summary of landslide treatment**

| S.N. | Landslide's name | Location    | Major activities                                                                                  | Remarks                                                                                 |
|------|------------------|-------------|---------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------|

## 2. Agri-land protection from river cuttings-3 sites

Small mitigation measures also contribute a lot to save lives and property of vulnerable community. The flood induced by erratic rain in Sindhukhola river damages substantial area of agriculture land and jeopardizes livelihood of some households every year. Aiming to contribute to protect agri-land from river cutting, three sites were

Photo: Farmers packing gabion box to protect agriland from river cutting

selected for this purpose. Similar to landslide stabilization programme, the project provided gabion wire box to the community whereas communities worked on packing gabion box and contributed for other unskilled labor required to complete the work. As District Soil Conservation Office, Sindhupalchok is also working in the same area, coordination was done to get better impact and increase sustainability of the work. Approximately 50 ropani of land is protected from river cutting. Detail is presented in table 23.

**Table 23: Details of agri-land protection from river cutting**

| S.N. | Site name  | Location   | Total household benefitted | Total land protected | No. of gabion wire box used | Remarks |
|------|------------|------------|----------------------------|----------------------|-----------------------------|---------|
| 1    | Ekalebeshi | Bansbari-6 | 9                          | 20 Ropani            | 5                           |         |
| 2    | Ganaha     | Thakani-2  | 7                          | 15 Ropani            | 4                           |         |

|   |             |            |   |           |    |                           |

| 3 | Ganeshsthan | Bansbari-2 | 9 | 20 Ropani | 32 | In coordination with DSCO |

### 3. Tree and grass plantation in and around land slide area

A total of 2485 different trees were planted in approximately 108 ropanies of land. Plantation was mainly done in school premises; hence, ECO DRR Clubs were mobilized for the works. Location of plantation and other details is presented in table 24.

**Table 24: Locations of plantation**

| SN | School                                | Address                    | No. of plant planted |
|----|---------------------------------------|----------------------------|----------------------|
| 1  | Sindhupuranagoan H. Secondary School  | Tar, Sindhukot-1           | 376                  |

| 10 | Jalpa Devi Higher Secondary School    | Jaisigaon, Bhotechaur-5    | 237                  |
|    | Total                                 |                            | 2485                 |

### 4. Terrace improvement in one hectare of land

Much of the agricultural land in the watershed areas has steep slopes or comprises of degraded outward facing terraces. Because of steep slopes, these kinds of croplands are precisely fragile. Extreme monsoon rains-torrential cloudbursts of up to 300 mm in an hour are not uncommon resulting in heavy surface run off and tremendously high soil loss. The soil nutrient losses are so

high that they cannot be fully replenished by the use of animal manure, and farmers are compelled to apply heavy amount of chemical fertilizers to maintain soil productivity which ultimately causes poor soil quality.

On the other hand, due to tall terrace riser and tradition of clearing grasses/weeds of terrace riser in every year, soil loss and collapse of terrace riser is very common in the project area. In view of these circumstances, terrace improvement program was designed to reduce soil and nutrient losses from bari land. Traditionally, terrace improvement means leveling terraces and building up risers by loose stone wall. In recent days, terrace improvement is practiced differently. This technology involves establishment of hedgerows on the edge of degraded outward sloping terraces and terrace riser, fruit and fodder in the toe of the terrace to minimize collapse of terrace riser, reduce surface run off and improve soil fertility, thereby increasing crop diversification and increased farm productivity for improved food self sufficiency and household income, and environmental protection. Keeping in view to meet above mentioned aim and objectives, terrace improvement demonstration program is initiated in 31 ropani of bari land. List of participating farmers is presented in table 25.

**Table. 25: List of participating farmers**

| S.N. | Farmers name             | Address      | Area for terrace improvement | Plants used                                       |
|------|--------------------------|--------------|------------------------------|---------------------------------------------------|
| 1    | Sitaram Chaulagain       | Sindhukot-7  | 9 ropani                     | Broom grass, Napier, Mulberry, Coffee, Citrus etc |
| 2    | Krishna Bd. Dhakal       | Bansbari-1   | 6 Ropani                     | Broom grass, Napier, Mulberry, Coffee, Citrus etc |
| 3    | Krishna Pd. Dulal        | Thakani-2    | 5 ropani                     | Broom grass, Napier, Mulberry, Coffee, Citrus etc |
| 4    | Dhorendra Bahadur Gurung | Haibung-9    | 4 Ropani                     | Broom grass, Napier, Mulberry, Coffee, Citrus etc |
| 5    | Rishi Ram Khatiwada      | Bhotechaur-8 | 6 Ropani                     | Broom grass, Napier, Mulberry, Coffee, Citrus etc |

In this program, the project provided planting materials while the participating farmer managed all the skill and unskilled labor required for the establishment of demonstration site. The planting material were supplied in July-August.

## **2.6 Coordination and linkages**

Series of consultation workshops were organized at district headquarter and local level aiming to establish strong linkages with media personnel, research organizations, private sectors, NGOs/CBOs, communities, government line agencies and other stakeholders in connection with CRM implementation in the community for synergy and sustainability.

### **1) District level consultation workshop:**

#### **First consultation/inception workshop**

A one day inception workshop was organized at district headquarter, Chautara. The objectives of the workshop were to make the participants familiar with working modality of the CBDRMI in Sindhupalchok and establish strong linkages between the CBDRMI and other line agencies including governmental and non-governmental organizations for synergy and sustainability. The program was chaired by Assistant Chief District Officer and a total of 42 people (38 male and 4 female) participated the program representing governmental/non-governmental organizations, major political parties, civil society, UNDP officials and other line agencies. The detail participant list is

Photo: District level consultative workshop

presented in annex 26. Three presentations focusing on overall working modality of community based disaster management in Nepal; working area, implementation modality and activities implemented by UNDP/CDRMP; and methodology of multi hazard risk assessment were delivered during the workshop. After these three presentations, the floor was open to raise questions, provide feedback and suggestions. All the political parties welcomed the project and thanked to CBDRMP/CDECF and CDRMP/UNDP for selecting the district to implement the project. Some of the participants were concerned on the short span of project.

### **Second consultation and District Project Coordination Committee formation workshop**

The technical proposal of the CBDRMP has envisioned a district project coordination committee (DPCC) led by the chairperson of District Disaster Rescue Committee (DDRC). The aim of creating such body is to monitor project activities and provide necessary feedback to project implementing team if needed. Hence a meeting was called inviting all the members of DDRC to create DPCC. The meeting was chaired and coordinated by DDRC chairperson. In addition to creating DPCC, two presentations focusing on status of CBDRMI, Sindhupalchok and CDRMP components were delivered by Project Coordinator and UNDP representative respectively during the meeting. After these two presentations, the project coordinator highlighted on the objective of the program and need of DPCC. The participants put their view on number and working modality of the DPCC.

Photo: DPCC formation meeting

As the DDRC is a slightly big body, the DDRC meeting decided to create a 10 member DPCC, a small body which could coordinate with project frequently and monitor the project activities regularly. The members of the DPCC are-

- Chief District Officer (CDO)
- Local Development Officer (LDO)
- District Soil Conservation Officer (DSCO)
- District Forest Officer (DFO)
- District Agriculture Officer (DADO)
- Water Induced Disaster Control Office
- Women Development and Children Office
- Nepal Red Cross
- Federation of Nepalese Journalist, Sindhupalchok
- CDECF

The concerned line agencies (members of DPCC/DDRC) showed great interest to provide necessary guidelines and support for proper implementation of the project activities. A total of 17 (all male) people participated the workshop. The detail participant list is presented in annex 27.

### **Third consultation and multi-hazard risk assessment report sharing workshop**

The third consultation workshop was organized to share the findings of multihazard risk assessment and management plan of Sindhukhola watershed with district level stakeholders. Government line agencies including chairperson of District Disaster Relief Committee and Chief District Officer, Local Development Officer (LDO), District Soil Conservation Officer (DSCO), District Agriculture Development Officer (DADO), District Forest Officer (DFO), and representative of security agencies participated the workshop (Detail participant list is presented in annex 28). Four presentations focusing on status of CBDRMP, CDRMP, multihazard risk assessment and watershed management plan were delivered by Project Coordinator, UNDP representative, Team Leader and Watershed Management Expert respectively.

The presentations were followed by open session, in which the participants were requested to put their view on the topic mentioned above. The suggestions given by the participants of workshop were later incorporated in the final report of multihazard risk assessment.

## **2) VDC level consultation workshop**

Series of consultation workshops were organized at local level aiming to establish strong linkages with local level stakeholders such as media personnel, representatives of research organizations, private sectors, NGOs/CBOs, communities, government line agencies and other stakeholders in connection with CRM implementation in the community for synergy and sustainability. Community Based Climate Risk Management Project/ Community Development and Environment Conservation Forum (CBCRMP/CDECF) organized five one day VDC level inception workshops in project area in between February 28, 2012 to March 24, 2012. Altogether 169 people took part in the program representing all active political parties, CBOs, resource user groups and other concerned organizations such as security agencies, schools etc. The detail participant list is presented in annex 29. The program was chaired by concerned VDC secretary followed by welcome remarks from project associate. The remarks of project coordinator were focused on the goal, objectives, area and activities of the CBDRMP. Concerned VDC secretaries welcomed the project and expressed their deep sense of commitment to provide necessary support for effective implementation of the project.

**Table 26: VDC Level consultative workshops**

| S. N. | Date              | Venue                     | Covered VDCs            | No. of participants |        |       |
|-------|-------------------|---------------------------|-------------------------|---------------------|--------|-------|
|       |                   |                           |                         | Male                | Female | Total |
| 1     | February 28, 2012 | Jalpadevi HSS, Bansbari   | Bandgegaon and Bansbari | 27                  | 9      | 36    |
| 2     | March 1, 2012     | Shrikrishna HSS, Thakani  | Thakani                 | 20                  | 3      | 23    |
| 3     | March 2, 2012     | Health post, Sindhukot    | Sindhukot               | 20                  | 10     | 30    |
| 4     | March 21, 2012    | VDC office, Bhotechaur    | Bhotechaur              | 36                  | 7      | 43    |
| 5     | March 24, 2012    | Healthpost Danda, Haibung | Haibung                 | 26                  | 11     | 37    |

### 3) Advocacy and lobby meeting with DWCO

Two advocacy and lobby meetings were organized in project area with women and child development office (WCDO) and local CBOs for inclusion of gender, marginalized groups and person with disability to involve them in regular planning process. The participants of the workshop were-

- Representative of women networks
- Representative of women's group

- People with disability
- Representative of community based disaster risk management committee
- Representative of janajatis, dalits and other marginalized communities
- Representative of civil society (Nagarik Sachetana Kendra etc)
- Representative of political parties
- VDC secretaries
- Representative of DWCO
- UNDP officials
- Participants of both workshop list is in Annex 9.

The objectives of the workshop were to-

- Increase participation of target people (women, marginalized group and person with disability) in local planning process
- Establish a strong linkages between target people and concerned government authorities such as VDCs, WCDO and local CBOs
- Ensure participation of target people/women in development activities
- Ensure top priority of women/target people's issues in local planning

The program was started with the brief introduction of the participants followed by major three presentations on purpose importance of programme, mainstreaming gender issues and gender issues in local level by Project Coordinator, UNDP GESI Officer

Photo: Participants of advocacy and lobby meeting in project site to ensure participation of women, people with disability and marginalized in local planning process

Gita Pradhan and WCDO Anju Dhungana respectively. After these three presentations, VDC

secretaries, political parties and local CBOS were requested to present gender related activities and policies in their program. Finally, all participants were requested to put their view on “how the participation of women, people with disability and marginalized can be ensured in local planning process”. The workshop was found very much helpful to establish strong ties between CSOs and government line agencies. The participants of the workshop committed to include the issues of women, marginalized group and person with disability in local planning process. A total of 76 (19 male and 57 female) people participate the workshkop (table 27). The detail participant list is presented in annex 30.

**Table 27: Date and venue of the workshop**

| S.N. | Date              | Venue                                                   | No. of participants |        |       |
|------|-------------------|---------------------------------------------------------|---------------------|--------|-------|
|      |                   |                                                         | Male                | Female | Total |
| 1    | November 25, 2012 | Jalpadevi HSS, Bhotechaur                               | 9                   | 29     | 38    |
| 2    | November 26, 2012 | Hotel Melamchi Diamond Cottage, Bansbari-4, Dhakalkhare | 10                  | 28     | 38    |

#### **4) Organize a meeting of representative of ECO-DRR club, facilitator teacher, district education office and women development office**

A one day workshop was conducted to establish a linkage between ECO DRR clubs and other stakeholders such as District Education Office (DEO) and Women and Child Development Office (WCDO). The workshop was organized at Shree Krishna HSS, Piple, Thakani-1 on January 13, 2013. The participants of the workshop were-

- Representative of ECO DRR Clubs (From all 10 schools)
- Focal teacher/headmaster/principal of school of Sindhukhola watershed
- Representative of WCDO and DEO
- Project staffs
- Participant list is presented in Annex 31.

The program was informally inaugurated by chief guest followed by self introduction of all participants. The Project Coordinator highlighted about the school based activities conducted by CBDRMP. He also focused his speech on background and purpose of the program. Mr. Manahari Khadka, the chief guest (Representative of District Education Office, Sindhupalchok) showed strong

Photo: Interaction meeting of representative of ECO-DRR club, facilitator teacher, district education office and women development office

commitment to implement the suggestion proposed by the workshop and extend all possible help. All participants were encouraged to put their view on strengthening of school based activities. Mr. Laxman Shrestha, Principal of Jalpadevi HSS, gave a special presentation “Sustainability of ECO DRR club activities”. Principal of Sindhupuranagaon HSS Mr. Kumar Khatiwada, student Krishna Prasad Dulal of Jalpadevi HSS, Bhotechaur, Bishal Raut student of Shreekirshna HSS Thakani, Karuna Sagar Sigdel student from Sindhupuranagaon HSS, Sudip Gurung; chairperson of ECO DRR club, Shree Jalpadevi HSS, Ganesh Tiwari headmaster of Mahakali secondary school suggested on the role of Eco DRR club on DRR and CCA. Another session was focuses on process of ECO DRR club registration in District Child Welfare Committee (DCWC). Ms. Bhawani Mishra from (WCDO) explained the process of ECO DRR Club registration in DCWC. She also committed to provide possible support for ECO DRR Club registration if sought. At the end of the program, the participants prepared an action plan and divided responsibility for ECO DRR club registration. Finally, the program was concluded with the vote of thanks from Project Coordinator. The workshop was participated by 29 (27 male and 2 female) people.

##### **5) Organize a interaction meeting of representatives of ECO-DRR club, facilitator teacher, VDC and District Development committee**

A half day workshop was organized aiming to create linkage between ECO DRR clubs and DDC and VDC authorities. The workshop was participated by representatives of ECO DRR Clubs,

focal teacher, DDC and VDC authorities. The workshop was mainly focused on sustainability of “ECO DRR Clubs” and possible help from concerned authorities such as VDC, DDC and school management committee to continue ECO DRR Club activities even after the project is phased out. Mr. Laxman Shrestha, Principal of Jalpadevi HSS, Bhotechaur gave a presentation on “how can we keep ECO DRR club sustainable?” Mr. Bala Ram Dhakal (Local Development Officer),

Photo: LDO Bala Ram Dhakal putting his view in the workshop

Mr. Ram Chandra Gautam (VDC secretary- Haibung and Thakani), Mr. Man Hari Khadka (School Invigilator- DEO), Mr. Uddav Chaulagain (Resource person- Jalpadevi resource center) also put their views on the topic. The school representatives (focal teacher/principal) showed strong commitment to make the ECO DRR club active and viable in the days to come even after the project support is pulled out. A total of 26 people (24 male and 2 female) participated the workshop. The detail participants list is presented in annex 32.

## **6) Organize meeting/interaction of CBDRMCs with concerned VDCs**

Aiming to establish a linkage between CBDRMCs and VDCs, five interaction meetings were organized between the members of CBDRMCs and VDC, one in each project VDCs. The major discussion points of the meetings were-

- Strengthening CBDRMCs
- Mainstreaming DRM on VDC planning process
- Conducting mitigation activities
- Others

A total of 85 people including 26 female participated the interaction workshop. Details of interaction meetings is presented in table 28

**Table 28: Details of Participants**

| VDC name   | Date of meeting | Participants |        |       | Covered CBDRMCs                                        | Remarks                                                                                                                                                              |

### **3. Partnership and spill-over effect**

The project is implemented by Community Development and Environment Conservation Forum (CDECF) by forming District Project Coordination Committee (DPCC) under the chairmanship of chairperson of District Disaster Rescue Committee (DDRC) and Chief District Officer (CDO) in which most of the line agencies of the district such as District Soil Conservation Office (DSCO), District Agriculture Development Office, District Forest Office and other organizations closely working in DRR/DRM were the members. Hence, the project was implemented through collective actions from different stakeholders including target beneficiaries. As the DPCC was part of DDRC, the project activities were implemented in close coordination with the members of DDRC. Organizing DDRC meeting in project area helped a lot to build a strong tie between the district line agencies and communities of project area. DPCC was very helpful for sharing information and implementing project activities collectively. This created synergy in implementation of project for poor and vulnerable population in the district. For instance, mitigation activities were implemented in close coordination of DSCO which helped a lot to bolster project effect.

Similarly LDRMP was prepared in collaboration with VDC and DDC. In VDC and community level, project activities were implemented in close coordination with LDRMC and VDC. Involving local level partner in implementing project activities helped a lot to increase ownership among the stakeholders of the project.

Advocacy and lobbying in local and district level to include DRM in planning process greatly helped mainstreaming DRM in local and district level. DRM policies are reflected in both the district and VDC plans of project area in last two years (2012 and 2013). The impact is seen in nearby VDC as well. Kunchok and Sipapokhare VDCs (VDCs outside the project area) of Sindhupalchok district have also included DRM in their VDC plan.

### **4. Lessons learned and implementation issues:**

The main lessons learnt by CBDRMP Sindhupalchok are:

- Livelihood related activities should be integrated with disaster risk management activities to bolster the project impact

- Strong coordination and linkage among the stakeholders of DRR helps to improve disaster coping capacity of local stakeholders and community people
- Minimum expectation of target communities should be addressed for effective implementation of the community based activities
- Awareness related activities should be complemented with mitigation activities
- DRM activities should be implemented continuously at least for three to five years to get better impact and sustainability of the project interventions.
- Combination of hardware and software approaches helps to gain the confidence of the community

## **5. Conclusion, recommendations and way forward**

The overall impact of the project was very encouraging though the project period was very short. The results of some of the activities of the project were very impressive which contributed achieving specific and overall objectives of the action. Multi-hazard risk assessment provided insight on level and source of risk/vulnerability of the local communities of the project area. The formation and mobilization of CBDRMCs encouraged community people for engaging in DRM activities. Similarly, the formation and strengthening of LDRMCs found effective in establishing local level institutional basis for DRM related activities. Capacity strengthening trainings such as search and rescue, first aid, early warning system and mitigation techniques were very effective especially sensitizing rural people on DRM and improving coping capacity of the local people. Involvement of line agencies in various trainings and programmes was very much helpful making direct interaction between duty bearers and community people. The livelihoods related skill trainings such as vegetable production, NTPFs cultivation, production and processing, market planning and business plan development training helped to diversify livelihood option of the community. Small mitigation activities were very much effective to attract people's motivation on DRM initiatives. Creation ECO DRR clubs and implementing DRM focused extra curricular activities were helpful to enhance knowledge of student on DRM and aware community people through their children.

So far, community level disaster risk management plan, local disaster risk management plan (VDC level) and watershed management plan are prepared by the community with the support of CBDRMP. These plans are prepared by community in consultation with experts, district and village level stakeholders through intensive discussion. These plans provides strong insight on vulnerability and actions to be undertaken to reduce the risk thereby improving livelihood of the

community. Hence, as the communities, VDCs and local stakeholders have taken initiatives to implement the plan, it is too ambitious to expect that the plan will be fully implemented by communities and government line agencies without external and additional resource. If it is left as it is the plan could be for plan only. Hence, implementing those plans is major challenge in the days to come. Therefore implementation of CBDRMP, LDRMP and watershed management plan consolidating the learning of past experience could improve disaster resiliency of the community collectively.

## 6. Summary of project progress (Activities vs outputs)

**Table 29: Summary of project achievement**

| Activities                                                        | Outputs                                                                                                                                      | Progress           | Remarks |

**Annex 3: Statute of Dahapokhari Bobrang CBDRMC**

**दहपोखरी-बोब्राङ्ग समुदायमा आधारित विपद जोखिम व्यवस्थापन समिति**

**हैबुङ्ग-८ र ९, बोब्राङ्ग-दहपोखरी,  
सिन्धुपाल्चोक**

**दहपोखरी-बोब्राङ्ग समुदायमा आधारित विपद जोखिम व्यवस्थापन समिति  
विधान, २०६९**

## दहपोखरी-बोब्राङ्ग समुदायमा आधारित विपद् जोखिम व्यवस्थापन समिति

## संचालन गर्न बनेको विधान

२०६९

### प्रस्तावना

नेपाल विश्वमा विपद् जोखिमका दृष्टिले अति संकटासन्न राष्ट्रको सुचीमा पर्छ । भौगर्भिक तथा जलवायुजन्य प्रकोपबाट उच्च जोखिम क्षेत्रमा अवस्थित मध्य पहाडी जिल्ला सिन्धुपाल्चोक जिल्लाको हैबुङ्ग गाउँ विकास समिति वडा नं. ८ र ९, दहपोखरी र बोब्राङ्गका टोलहरु विपद् संकटासन्न समुदायको रुपमा रहेको छ । प्राकृतिक वा गैर-प्राकृतिक प्रकोपहरुबाट पर्ने प्रतिकूल प्रभावको अल्पीकरण (mitigation), पूर्व तयारी (preparedness), प्रभावकारी प्रतिकार्य ( effective response) र पुर्नलाभ (recovery) गर्न जरुरी रहेको छ । अति संकटासन्न समुदायलाई विपद् उत्थानशील समाजमा रुपान्तरण गर्न एकीकृत विपद् जोखिम व्यवस्थापन (Integrated Disaster Risk Management - IDRM) को अवधारणा स्थानीय स्तरमा प्रयोगका लागि स्थापित दहपोखरी-बोब्राङ्ग समुदायमा आधारित विपद् जोखिम व्यवस्थापन समितिलाई संस्थागत तथा वैधानिक आधार प्रदान गर्न यो विधान नेपाल सरकारको संस्था दर्ता ऐन, २०३४ र विद्यमान प्रचलित कानूनको अधिनमा रही तर्जुमा गरिएको छ ।

## परिच्छेद १

### प्रारम्भिक

#### १. संस्थाको नाम

यस संस्थाको नाम दहपोखरी-बोब्राङ्ग समुदायमा आधारित विपद् जोखिम व्यवस्थापन समिति रहने छ । अंग्रेजीमा Dahapokhari-Bobrang Community Based Disaster Risk Management Committee रहने छ । छोटकरीमा नेपालीमा दसआविजोव्यास र अङ्ग्रेजीमा D -CBDRMC रहने छ ।

(क) **संस्थाको ठेगाना:** हैबुङ्ग ९, दहपोखरी, सिन्धुपाल्चोक हुने छ । संस्थाको कार्यालय सिन्धुपाल्चोक जिल्ला, हैबुङ्ग ९, दहपोखरीमा रहने छ ।

(ख) **संस्थाको कार्यक्षेत्र:** यस समुदायमा आधारित विपद् जोखिम व्यवस्थापन समितिको कार्यक्षेत्र सिन्धुपाल्चोक जिल्लाको हैबुङ्ग गा.वि.स. वडा नं. ९ र ८, दहपोखरी र बोब्राङ्ग हुने छ ।

(ग) **प्रारम्भ:** यो विधान समितिको भेलाले पारित भई गाउँ विकास समितिको कार्यालयले स्वीकृत गरेपछि तुरुन्त प्रारम्भ हुने छ ।

(घ) **संस्थाको अस्तित्व:** यो संस्था एक अविच्छिन्न उत्तराधिकारवाला, सङ्गठित, स्वशासित, गैर-नाफामूलक, गैर-राजनीतिक तथा सामुदायिक संस्था हुने छ ।

#### २. परिभाषा

विषय वा प्रसङ्गले अन्य अर्थ नलागेमा यस विधानमा समुदायमा आधारित विपद् जोखिम व्यवस्थापन समितिको विधान, २०६९ मा

क) “विधान” भन्नाले यस समितिको विधानलाई सम्झनुपर्छ ।

ख) “समिति” भन्नाले दहपोखरी र बोब्राङ्ग समुदायमा आधारित विपद् जोखिम व्यवस्थापन समितिलाई जनाउँछ ।

ग) “समिति” भन्नाले यस विधानको दफा १३ बमोजिम गठित कार्य समितिलाई जनाउँछ ।

घ) “भेला” भन्नाले यस विधानबमोजिम बसेको भेला र विशेष भेलालाई समेत जनाउँछ ।

ङ) “पदाधिकारी” भन्नाले समितिका पदाधिकारीहरूलाई सम्झनुपर्छ ।

च) “नियम, विनियम” भन्नाले यस विधानअन्तर्गत बन्ने नियम विनियमलाई जनाउँछ ।

छ) “स्थानीय अधिकारी” भन्नाले प्रमुख जिल्ला अधिकारी, स्थानीय विकास अधिकारी तथा गाविस अध्यक्ष वा सचिवलाई सम्झनु पर्छ ।

ज) “तोकिएको वा तोकिए बमोजिम” भन्नाले यो विधान र यस विधानअन्तर्गत बनेको नियम विनियममा तोकिएको वा तोकिएबमोजिम सम्झनु पर्छ ।

झ) “स्थानीय निकाय” भन्नाले गाउँ विकास समिति, जिल्ला विकास समिति र जिल्ला प्रशासन कार्यालयलाई जनाउने छ ।

### ३ संस्थाको छाप र चिन्ह

संस्थाको एउटा छुट्टै छाप र चिन्ह हुनेछ । छाप र चिन्ह अनुसूची १ बमोजिमको ढाँचामा हुनेछ । तर संस्थाको नाम छाप र चिन्ह यसअघि दर्ता भएको कुनै संस्थासँग मेल खाएमा संशोधनको प्रक्रियाद्वारा तुरुन्त संशोधन गरिने छ ।

### ४. समिति संगठित संस्था हुने

(क) समिति अविच्छिन्न उत्तराधिकारवाला एक स्वशासित संस्था हुने छ ।

(ख) समितिको सबै कामकाज प्रमाणित गर्नका लागि **अनुसूची-१** मा उल्लेख गरिए अनुसार आफ्नो छुट्टै चिन्ह अंकित छाप रहने छ ।

(ग) समितिको छाप संचालक समितिबाट अधिकार प्राप्त व्यक्तिको जिम्मामा रहने छ ।

(घ) समितिले व्यक्ति सरह प्रचलित कानून एवं यस विनियममा उल्लेख भए बमोजिम चल अचल सम्पत्ती प्राप्त गर्न, उपभोग गर्न र सम्पत्ती बेचबिखन गर्न कुनै प्रकारले बन्दोबस्त गर्न सक्ने छ ।

(ङ) समितिले व्यक्ति सरह आफ्नो नामबाट नालिस उजूर गर्न र सो उपर पनि सोही नामबाट नालिस उजूर लाग्न सक्ने छ ।

## परिच्छेद २

### संस्थाको लक्ष्य तथा उद्देश्य

#### ५. समितिको लक्ष्य

समितिको कार्य क्षेत्रमा रहेका समुदायलाई विपद् उत्थानशिल समाजमा रूपान्तर गर्ने ।

#### ६. उद्देश्य

संस्थाको उद्देश्य देहाय बमोजिम रहने छ ।

क) समुदायमा आधारित विपद् जोखिम व्यवस्थापन समिति समुदाय स्तरमा स्थापित विपद् संकटासन्न समुदायको समिति हुने छ । जसले समुदायमा हुने विपद् जोखिम न्यूनीकरण सम्बन्धी कार्यहरूको बहस, पैरवी, समन्वय र कार्यन्वयन लगायत प्राथमिकताका क्षेत्रहरूमा आफ्ना गतिविधिहरू सञ्चालन गर्न सरोकारवाला निकायहरूसँग समन्वयात्मक एवं सहभागितामूलक नीति, योजना र कार्यक्रमहरूलाई मूलधारमा ल्याई अगाडि बढ्ने ।

ख) समुदायको विपद् जोखिम न्यूनीकरणका क्रियाकलापहरूको कार्यन्वयनमा पथप्रदर्शन एवं सुधारात्मक कार्यहरू गर्ने ।

ग) नागरिक समाज, गैरसरकारी संस्था एवं निजी क्षेत्रका सम्बद्ध संस्थाहरूलाई समेत विपद् न्यूनीकरणका कार्यमा प्रभावकारी रूपले संलग्न गराई उपयुक्त स्तरमा संवाद, छलफल लगायतका कार्यहरू सञ्चालन गरिने र अन्यलाई यस्तो कार्य सञ्चालन गर्नमा मद्दत पुऱ्याउने ।

घ) विपद् जोखिम न्यूनीकरण कार्यमा सघाउ पुऱ्याई सुरक्षा र सवलीकरणको सार्वजनिक दायित्वबारे नागरिकहरूबीच चेतना वृद्धि गर्ने ।

ङ) स्थानीय स्तरमा विपद् जोखिम न्यूनीकरणको विषयलाई विकाससम्बन्धी नीति, कार्यनीति तथा क्रियाकलापमा समाहित गराउन वकालत र पैरवी गर्नुका साथै यस विषयलाई बहुपक्षीय वातावरणीय सम्झौताको अभिन्न पक्षका रूपमा समावेश गराउन पहल गर्ने ।

च) विपद् जोखिम व्यवस्थापनमा पहिलो प्रतिकार शक्तिको रूपमा कार्य गर्ने ।

छ) विपद् जोखिम न्यूनीकरणसम्बन्धी समुदाय स्तरमा संयोजन गरिने सम्बद्ध सबै कार्यमा सहभागिता हुने ।

#### ७. संस्थाको उद्देश्य प्राप्त गर्न गरिने कामहरू

यस संस्थाले उपरोक्त उद्देश्यहरू प्राप्त गर्न देहायका कार्यहरू गर्ने छ ।

क) विपद् व्यवस्थापनसम्बन्धी स्थानीय नीति र कार्यक्रमका विषयमा सबै सरोकारवाला पक्षको सक्रिय सहभागिता हासिल गराई प्रभावकारी रूपमा सम्वाद, वकालत र परैवीको अभियान सञ्चालन गर्ने ।

ख) विपद् जोखिम न्यूनीकरणका लागि आधारभूत सूचना प्रणालीको व्यवस्थापन गर्न माग तथा समुदाय स्तरमा सञ्चालन गर्ने ।

ग) विपद् व्यवस्थापनसम्बन्धी समुदायमा विकास कार्यक्रमहरू तजर्मुा गर्न तथा स्रोत परिचालन र क्षमता विकासका प्रयासमा सहभागिता एवं सहयोग गर्ने ।

घ) विपद् जोखिमसम्बन्धी सरोकार र चुनौतीको मूल्याङ्कन विश्लेषण गर्ने, विपद् जोखिम न्यूनीकरणका प्राथमिकताका क्षेत्रहरूको निर्धारण गर्नुका साथै सड्कटाभिमुख स्थितिमा रहेका घरधुरी समेतको पहिचान गर्न सघाउने ।

ङ) विपद् जोखिम न्यूनीकरणका लागि सञ्चालित विकास योजना र कार्यप्रणालीको समीक्षा गरी सकारात्मक उपलब्धिलाई संस्थागत रूपमा निरन्तरता दिन एकीकृत प्रयत्न गर्ने ।

च) विपद् व्यवस्थापनसम्बन्धी आर्जित ज्ञान, सीप र सूचना आदान प्रदान गर्ने र तत्सम्बन्धी प्रविधि विस्तार गर्ने ।

छ) जिल्ला तथा गाविसका तहका सरोकारवाला निकाय सँग समुदाय तहमा विपद् जोखिम व्यवस्थापन सम्बन्धि सवालमा समन्वयात्मक कार्यान्वयनका लागि कार्यमूलक योजनासहित काम गर्ने ।

ज) विपद् जोखिम न्यूनीकरणको कार्यलाई बहुपक्षीय सरोकारका रूपमा स्थापित गरी नागरिक समाज र गैरसरकारी संस्था निजी क्षेत्र एवं सामुदायिक समूहबीच सहकार्य र संवादको माध्यमबाट अवसर सृजना गर्ने,

झ) जिल्ला तथा गाविसका तहका सरोकारवाला निकाय, दातृ निकाय, गैरसरकारी संस्था निजी क्षेत्र एवं सामुदायिक समूहबीच सहकार्य गरी विपद् पुर्व तयारी, प्रतिकार्य, पुर्नलाभ र अल्पीकरणका कार्यक्रमहरू सञ्चालन गर्ने ।

## परिच्छेद ३

## सदस्यता

### ८. सदस्यता

संस्थामा सदस्यतासम्बन्धी व्यवस्था देहायबमोजिम हुने छ ।

८.१ संकटासन्न हैबुङ्ग गाविस वडा नं ८ र ९ का बोब्राङ्ग र दहपोखरीका सबै टोलहरुमा वसोवास गर्ने समुदायमा मध्ये एक परिवार १ सदस्य हुने छ ।

८.२ सदस्यता प्राप्तिका लागि आवश्यक योग्यता

यस संस्थाको सदस्यको लागि देहायबमोजिमको योग्यता पुगेको हुनुपर्ने छ ।

क) नेपाली नागरिक भएको ।

ख) १६ वर्ष उमेर पूरा गरेको । तर वृद्ध आश्रम र वालगृहको हकमा प्रत्येक आश्रम र गृहका सञ्चालक हुनुपर्ने छ ।

छ) सदस्यले पालन गर्नुपर्ने दायित्व र आचारसंहिता वार्षिक भेला वा समितिले निर्धारण गरेबमोजिम हुने छ ।

ज) सदस्यता सम्बन्धी योग्यताका अन्य व्यवस्था तोकिए बमोजिम हुने छ ।

### ८.३ सदस्यताको समाप्ति

यस संस्थाको देहायको अवस्थामा कुनै व्यक्तिको सदस्यता हुने छैन ।

क) नेपालको कानून बमोजिम कुनै संस्थाको सदस्य हुन आवश्यक योग्यता नभएका व्यक्ति ।

ख) वार्षिक भेलाको ७५ प्रतिशत सदस्यहरुको बहुमतले संस्थाको सदस्य पदबाट हटाउने प्रस्ताव पारित गरेमा । तर विपक्ष जोखिम व्यवस्थापनमा सहभागी हुन चाहेमा निर्यण प्रक्रियाबाहेक अन्य कार्यमा सदस्य सरह सहभागी हुने छ ।

ग) सदस्यले आफ्नो पदबाट दिएको राजिनामा स्वीकृत भएमा ।

घ) संस्थाको काम कारवाहीमा बेइमानी वा वदनियत गरेको कुरा स्थानीय निकाय वा अदालतबाट प्रमाणित भएमा ।

ड) यस समितिको कार्यक्षेत्रबाट स्थायी वसाईसराई गरेमा ।

च) संस्था विघटन भई खारेज भएमा ।

### ९ . सदस्यको काम, कर्तव्य र अधिकार

सदस्यको काम, कर्तव्य र अधिकार देहाय बमोजिम हुने छन् ।

- (क) एक सदस्य एक मतको मताधिकार प्रयोग गर्ने ।
- (ख) वार्षिक भेला बाट निर्वाचित भई संस्थाको व्यवस्थापनको नेतृत्व लिने वा सरिक हुने ।
- (ग) सदस्य एवं समितिको हितमा संचालकहरुलाई आवश्यक सल्लाह र सहयोग पुर्याउने
- (घ) संस्थाको वार्षिक भेलामा सहभागी भई छलफलमा भाग लिने तथा संस्थाको गतिविधिका बारेमा प्रश्न गर्ने ।
- (ङ) समितिले सदस्यका लागि संचालन गरेका सुविधाको उपभोग गर्ने ।

## १० . सदस्यको दायित्व

- (१) समितिको उद्देश्य अनुसार विपद जोखिम न्युनिकरणका कृयाकलापमा सहयोग गर्ने ।
- (२) समितिको विधानको पालना गर्नु सम्पूर्ण सदस्यहरुको दायित्व हुनेछ ।

## परिच्छेद ४

### समितिको भेला र कार्य संचालन विधि

#### ११. वार्षिक भेला

- (१) समितिले गठन भएको मितिले १ वर्ष भित्र संस्थाको वार्षिक भेला सम्पन्न गर्ने छ ।
- (२) समितिको वार्षिक भेला १/१ वर्षमा उपयुक्त मिति तय गरि कार्य क्षेत्र भित्र गर्ने छ ।
- (३) दफा १०(१) बमोजिम समितिले वार्षिक भेला नबोलाएको अवस्थामा २५ प्रतिशत सदस्यले प्रारम्भिक भेला बोलाई दिन सम्बन्धित गाविसमा लिखित निवेदन दिएमा उक्त गाविसको दिइको लिखित निर्णय अनुसार हुने छ ।
- (४) संस्थाको कूल सदस्य संख्याको ५१ प्रतिशत सदस्यहरुको उपस्थिति भएमा वार्षिक भेला संचालन गर्न गणपूरक संख्या पुगेको मानिने छ ।
- (५) वार्षिक भेलाले देहायका कार्यहरु गर्ने छ ।
  - (क) कार्य समिति भंग गरी भेलाको भेलापतिको चयन गर्ने ।
  - (ख) अघिल्लो दिनसम्मको समितिको काम कारवाहीको हर हिसावको जानकारी लिने ।

- (ग) भेलामा पेश भएका प्रतिवेदनमाथि छलफल गर्ने र निर्देशन दिने ।
- (घ) विधानमा भएको व्यवस्था बमोजिम बनेको निर्वाचन समितिले विनियममा उल्लेख भए बमोजिम पदावधी रहने गरी कार्य समिति निर्वाचन गर्ने ।
- (ङ) विधानमा तोकिए बमोजिमका अन्य कार्यहरू गर्ने ।

## १२. विशेष भेला

- (१) समितिको विशेष भेला देहायको अवस्थामा १५ दिनको सूचना दिई कार्य समितिले बोलाउन सक्नेछ । सूचना गर्ने प्रक्रिया नियमित विशेष भेला मै अवलम्बन गरिने छ ।
  - (क) समितिको हिसाब जाँचको सिलसिलामा लेखापरीक्षकले पर्याप्त कारण देखाई समिति समक्ष सुभाब पेश गरेमा वा
  - (ख) लेखा समितिले यथेष्ट कारण समेत खोली समितिलाई लिखित सुभाब पेश गरेमा वा
  - (घ) संस्थाको कूल सदस्यको १० प्रतिशत वा १० जना मध्ये जुन बढी हुन्छ सो संख्याले प्रर्याप्त कारण देखाई समिति समक्ष निवेदन दिएमा वा
  - (ङ) समितिले कुनै विषयमा तत्कालै निर्णय लिन विशेष भेला डाक्न मनासिब देखेमा ।
- (२) विशेष भेलाका लागि गणपूरक संख्या कूल सदस्य संख्याको १५ प्रतिशत हुने छ ।
- (३) विशेष भेलाको अध्यक्षता समितिको अध्यक्षले, अध्यक्षको अनुपस्थितिमा उपाध्यक्षले र निजको पनि अनुपस्थितिमा उपस्थित सदस्यहरूबाट छानिएका सदस्यले गर्ने छन् ।
- (४) यो भेला जुन प्रयोजनका लागि डाकिएको हो सोही विषयमा मात्र छलफल गरी निर्णय गरिने छ ।

## १३. समितिको गठन

- १. संस्थाको कार्यकारी संयन्त्रका रूपमा वार्षिक भेलाका सदस्यमध्येबाट बढीमा १७ जनाको एउटा कार्य समिति रहनेछ । यस कार्य समितिमा सुरुको २ वर्षका लागि उपस्थित समुदायले तोकेको व्यक्तिको अध्यक्षतामा निम्नानुसार पदाधिकारी एवं सदस्यहरू आपसी सहमतिमा चयन गरिने छन् ।
- २) समितिमा कमिमा ४० प्रतिशत लैङ्गिक समता र सामाजिक समावेशी हुनु पर्ने छ ।

३) समितिको मुख्य ५ पदाधिकारीहरु अध्यक्ष, उपाध्यक्ष, सचिव, सहसचिव र कोषाध्यक्ष मध्ये कम्तिमा २ जना महिला हुनु पर्ने छ ।

अध्यक्ष: १ जना

उपाध्यक्ष: १ जना

सचिव: १ जना

सहसचिव: १ जना

कोषाध्यक्ष: १ जना

सदस्यहरु: ८ जना

४. उपदफा (१) बमोजिमको कार्य समितिको समयावधिपछि यस समितिका सबै पदहरुमा समिति सदस्यहरुमध्येबाट निर्वाचनको माध्यमबाट पदाधिकारी एवं सदस्य नियुक्त हुने छन् ।

५. कार्य समितिको कार्यकाल २ (दुई ) वर्षको हुने छ ।

६. कार्य समितिको बैठक आवश्यकताअनुसार अध्यक्षले बोलाउने छ । तर कार्य समितिको पदाधिकारीहरुको जम्मा सङ्ख्याको ५१ प्रतिशतले बैठक बोलाउन माग गरेमा अध्यक्षले कार्य समितिको बैठक तुरुन्त बोलाउनु पर्ने छ ।

७. कार्य समितिका पदाधिकारीहरुको कूल संख्याको ५१ प्रतिशत पदाधिकारीहरु उपस्थित नभई कार्य समितिको बैठक बस्ने छैन ।

८. कार्य समितिको बैठकमा अध्यक्षले अध्यक्षता गर्ने छन् र निजको अनुपस्थितिमा उपाध्यक्षले र उपाध्यक्षको पनि अनुपस्थिति रहेमा बैठकमा उपस्थित सदस्यहरुले छानेको वा जेष्ठ सदस्यले अध्यक्षता गर्ने छ ।

९. कार्य समितिको बैठकमा बहुमतको निर्णय मान्य हुनेछ र मत बराबर भएमा अध्यक्षले निर्णायक मत दिने छ ।

१०. कार्य समितिको बैठकमा छलफल भएको विषयहरुको छुट्टै निर्णय किताबमा लेखी राखिने छ र सो निर्णय विवरणमा बैठकमा उपस्थित सम्पूर्ण सदस्यहरुले सही गर्नु पर्ने छ । तर निर्णय मा असहमति जनाउनेहरुले कैफियत खोली सही गर्नुपर्ने छ ।

११. माथिका दफाहरुमा जुनसुकै कुरा लेखिएको भए तापनि कार्य समितिले गर्न पाउने कुनै कार्यको सम्बन्धमा कार्य समितिका सबै पदाधिकारी एवं सदस्यहरु लिखित रूपमा सहमत भएमा त्यस्तो सहमतिलाई निर्णय

पुस्तिकामा संलग्न गरी त्यस्तो काम बैठक बिना पनि गर्न सकिने छ । उपरोक्त बमोजिमको सहमतिलाई कार्य समितिको बैठकको निर्णय सरह मानिने छ ।

#### १४. कार्य समितिको काम, कर्तव्य र अधिकार

कार्य समितिको काम, कर्तव्य र अधिकार देहाय बमोजिम हुने छ ।

१. कार्य समितिले विपद् न्यूनीकरण एवं व्यवस्थासम्बन्धी रणनीतिक र प्रवर्द्धनकारी भूमिका निर्वाह गर्ने ।

## Annex 16: Operation guideline of emergency fund

### स्थानीय विपद् जोखिम व्यवस्थापन आकस्मिक कोष संचालन निर्देशिका, २०६९

नेपाल सरकार गृह मन्त्रालयले जारी गरेको विपद् जोखिम व्यवस्थापन राष्ट्रिय रणनीति, २०६६ को लक्ष्य हासिल गर्न तथा पहिलो प्रतिकार्यकर्ताको रूपमा भुमिका स्थापित गर्न नेपाल सरकार, स्थानीय स्वायत्त शासन ऐन, २०५५ को अधिनमा रही नेपाल सरकार, स्थानीय विकास मन्त्रालयको स्थानीय विपद् जोखिम व्यवस्थापन योजना तर्जुमा निर्देशिका, २०६८ ले निर्माण गरेको स्थानीय विपद् जोखिम व्यवस्थापन समिति गठन भई आकस्मिक कोष स्थापना भई सकेको छ । गाँउ विकास समिति (गा.वि.स.) र समुदायमा आधारित जलवायुजन्य जोखिम व्यवस्थापन परियोजना, सिन्धुपाल्चोकको संयुक्त प्रयासमा स्थापित स्थानीय विपद् जोखिम व्यवस्थापन आकस्मिक कोषलाई नियमित, मर्यादित र अनुशासित बनाई स्थानीय विपद् जोखिम व्यवस्थापन समितिलाई क्रियाशील तथा गतिशील बनाउँन यो निर्देशिका निर्माण गरिएको छ । यो निर्देशिका स्थानीय विपद् जोखिम व्यवस्थापनका लागि स्थानीय विपद् जोखिम व्यवस्थापन आकस्मिक कोष सञ्चालन मार्गदर्शनका रूपमा यस..... गा.वि.स.को गाँउ परिषद्बाट आवश्यक संसोधन सहित पारित गरिएपछि पुर्णरूपमा लागु हुने छ । अन्तरिम रूपमा स्थानीय विपद् जोखिम व्यवस्थापन समितिको बैठकबाट पारित गरि कोषको सञ्चालन गरिने छ ।

### १. स्थानीय विपद् जोखिम व्यवस्थापन आकस्मिक कोषका निर्माण तथा व्यवस्थापन

क. स्थानीय विपद् जोखिम व्यवस्थापन आकस्मिक कोष स्थानीय विपद् जोखिम व्यवस्थापन समितिको कोषका रूपमा उद्धार तथा राहत कार्यको सञ्चालनका लागि यस ..... गा.वि.स. मा रहने छ ।

ख. यो कोष निर्माणका लागि विपद् जोखिम व्यवस्थापन राष्ट्रिय रणनीति, २०६६ र स्थानीय विपद् जोखिम व्यवस्थापन योजना तर्जुमा निर्देशिका, २०६८ ले तोकिए अनुसार गा.वि.स.ले आवश्यक बजेटको व्यवस्था गर्नुपर्ने भएकोले हाल यस गा.वि.स. मा यु.एन.डी.पि./बृहत्तर विपद् जोखिम व्यवस्थापन कार्यक्रमको सहयोगमा सञ्चालित समुदायमा आधारित जलवायुजन्य जोखिम व्यवस्थापन परियोजना, सिन्धुपाल्चोकसँगको आर्थिक साभेदारीमा कोष स्थापित गरिएको छ ।

ग. यो कोष गा.वि.स. को उपसमितिको रूपमा रहेको स्थानीय विपद् जोखिम व्यवस्थापन समितिको मातहतमा रहने छ । यसको व्यवस्थापनको लागि छुट्टै बैंक खाता खोली सञ्चालन गरिने छ ।

घ. प्रकोप पीडित उद्धार र राहत सम्बन्धि मापदण्ड, २०६४ ले निर्देशित गरेर बनेको क्षेत्रीय/जिल्ला प्रकोप उद्धार कोषको जस्तै न्युनतम मौज्जात स्थानीय विपद् जोखिम व्यवस्थापनले गा.वि.स. को सहयोगमा राख्नु पर्ने छ । यस्तो न्युनतम मौज्जात यस ..... गा.वि.स. को हकमा रु ५०,०००.०० (अक्षरूपी पचास हजार) हुने छ । आफ्नो आम्दानी हेरी यस भन्दा माथि जति पनि मौज्जात राख्न सक्ने छ ।

ड. प्रत्येक वर्ष गा.वि.स. ले आफ्नै बजेटबाट वा गैर सरकारी संघसंस्थाको सहयोगमा रकम व्यवस्था गरी बुँदा १ (घ) मा तोकिएको न्युनतम मौज्जात नघटाई कोषबाट स्थानीय विपद् जोखिम व्यवस्थापन समितिले आवश्यकता अनुसार स्थानीय विपद् जोखिम व्यवस्थापनका अन्य कार्य गर्न सक्ने छ ।

## २. स्थानीय विपद् जोखिम व्यवस्थापन आकस्मिक कोष सञ्चालन

क. यस कोष सञ्चालनका लागि स्थानीय विपद् जोखिम व्यवस्थापन समितिमा एक उद्धार तथा राहत कार्यदल रहने छ। उक्त कार्यदल बुँदा २(ख) बमोजिम निर्माण हुने छ। यस निर्देशिका बाहेकको संस्थागत संरचना, काम, कर्तव्य र अधिकार पछि तर्जुमा गरिने स्थानीय विपद् जोखिम पुर्वतयारी तथा प्रतिकार्य योजना अनुसार हुने छ।

ख. उद्धार तथा राहत कार्यदल स्थानीय विपद् जोखिम व्यवस्थापन समितिको अध्यक्षको संयोजकत्वमा निम्न अनुसार पाँच सदस्य हुने छ।

अ. संयोजक: अध्यक्ष, स्थानीय विपद् जोखिम व्यवस्थापन समिति

आ. सह-संयोजक: कोषाध्यक्ष, स्थानीय विपद् जोखिम व्यवस्थापन समिति

इ. सदस्यहरु: क. सचिव, स्थानीय विपद् जोखिम व्यवस्थापन समिति

ख. स्थानीय विपद् जोखिम व्यवस्थापन समितिको सदस्यहरु मध्येबाट स्थानीय विपद्

जोखिम व्यवस्थापन समितिको बैठकले तोकेका दुई जना

ग. स्थानीय विपद् जोखिम पुर्वतयारी तथा प्रतिकार्य योजनाले विस्तृत सञ्चालन खाँका नबन्नुजेलसम्म संयोजकको अनिवार्य उपस्थितिमा बहुमत सदस्यहरुले उद्धार तथा राहतको निर्णय गर्ने छ।

घ. यो कोष विपद् जोखिम व्यवस्थापन (खासगरी विपद् पीडितको राहत) का लागि मात्र सञ्चालन गरिने छ।

**स्पष्टीकरण:** यस कोषबाट गरिब, असक्त तथा अपाङ्गता भएका व्यक्ति, विपद्का कारण बाहेक उत्पन्न रोगीका लागि उपचार सहयता, शैक्षिक सहयता, दलित तथा पिछडिएका वर्गका लागि सहायता लागत अन्य सामाजिक सहायताका लागि प्रयोग गर्न पाईने छैन।

## ३. स्थानीय विपद् जोखिम व्यवस्थापन आकस्मिक कोषबाट प्रदान गरिने आपतकालिन उद्धार तथा राहतका आधार र विवरण

क. स्थानीय विपद् जोखिम पुर्वतयारी तथा प्रतिकार्य योजना बनाई सो योजनाले तोके बमोजिम क्षति तथा आवश्यकता विश्लेषण कार्यदलको ठहर अनुसार बुँदा २(ख) बाट निर्माण भएको कार्यदलले राहत पीडित परिवारलाई स्थानीय विपद् जोखिम व्यवस्थापन समितिलाई जानकारी भएको सात दिनभित्रमा प्रदान गर्ने छ। उक्त कार्यदल नहुँदा बुँदा २(ख) बमोजिमले नै क्षति तथा आवश्यकता विश्लेषण गर्ने छ।

ख. विपद् पीडितले निम्न अनुसारको स्थानीय विपद् जोखिम व्यवस्थापन समितिबाट राहत पाउने छन्।

अ. विपदमा परि कुनै व्यक्तिको मृत्यु भए आपतकालिन राहत स्वरुप प्रति व्यक्ति (मृतक) रु ५,०००.०० (अक्षरुपी पाँच हजार) का दरले मृतकको परिवारलाई स्थानीय विपद् जोखिम व्यवस्थापन समितिले सहयोग गर्ने छ।

आ. विपदमा परि अंगभंग भई उपचार गराउदै रहे प्रति पीडित व्यक्तिलाई रु २,०००.०० (अक्षरुपी दुई हजार) सम्म उपचार सहयोग स्थानीय विपद् जोखिम व्यवस्थापन समितिले गर्ने छ। उपचार पश्चात पनि कुनै अंग पुर्ण रुपमा काम नलाग्ने भए थप रु २,०००.०० (अक्षरुपी दुई हजार) उपलब्ध गराउने छ।

इ. विपद्बाट वासस्थान पुर्ण नष्ट भई छिमेकीको घरमा आश्रय वा अन्य विस्थापित वा अस्थायी शिविरमा बस्नु पर्ने भए राहत स्वरूप स्थानीय विपद् जोखिम व्यवस्थापन समितिले प्रति परिवार रु १,००० (अक्षरूपी एक हजार) प्रदान गर्ने छ ।

**स्पष्टीकरण:** परिवार भन्नाले आमा, बुबा, श्रीमान्/श्रीमति, छोरा, छोरी र अन्य आश्रित व्यक्ति बुझिन्छ । विवाहित दाजु भाई वा माईतीमा आश्रित चेलीबेटी र उनीहरुको सन्तानहरुलाई अर्को परिवार मानिने छ ।

ई. विपद्बाट भण्डारण गरेको खाद्यान्य तथा जग्गा जमिनमा लगाएको वाली जग्गा जमिन नोक्सान भई तत्काल गुजाराका लागि खाद्यान्य नभए प्रति परिवार रु २,००० (अक्षरूपी दुई हजार) सम्म राहत प्रदान गर्ने छ ।

उ. पशुपंक्षी तथा माथि तोकिएको अवस्था बाहेक अन्य कुनै सम्पत्ति नष्ट भए समितिबाट राहत प्रदान गरिने छैन । ती अवस्थामा बुँदा ३(ग) र बुँदा ३(घ) ले तोकेअनुसार गर्ने ।

ग. प्रकोप पीडित उद्धार र राहत सम्बन्धी मापदण्ड, २०६४ (दोस्रो संसोधन) को दफा २ बमोजिमको राहत प्राप्त गर्ने आवश्यक कागजात तयार गर्न सहयोग तथा आवश्यक सिफारिस गरी प्रकोप घटेको ३० दिन अगावै जिल्ला प्रशासन कार्यालयमा आवेदन गर्न सहयोग गर्ने ।

घ. विपद् जोखिममा काम गर्ने गैर सरकारी संघ संस्थाहरुबाट राहत प्राप्त गर्न आवश्यक सिफारिस तथा पहल गर्ने ।

ङ. बुँदा ३(ख) मा तोकिएको राहत प्राप्त गर्न प्रकोपका निम्न कारणहरु हुनुपर्ने छ ।

अ. प्राकृतिक प्रकोप: भुकम्प, पहिरो, बाढी, असिना, अतिवृष्टी, हिउँपात तथा अत्याधिक चिसो, तुषारो, हुरीबतास, चट्याङ्ग र महामारी

आ. मानवसृजित प्रकोप: आगलागी, विद्युतको अत्यधिक प्रवाह (चट्याङ्गको कारण घरमा हुने अत्यधिक विद्युत प्रवाहसहित), सार्वजनिक सवारी तथा हवाई दुर्घटना

**स्पष्टीकरण:** सामाजिक द्वन्द, व्यक्तिगत हत्या, आत्माहत्या, पौडी खेल वा साहसिक खेलमा सहभागी हुँदा भएको दुर्घटना, निजी सवारी दुर्घटना, वैदेशिक रोजगारीमा भएको दुर्घटना र केन्द्र तथा जिल्लाबाट विशेषज्ञ टोली नआई नियन्त्रण भएको कुनै पनि रोग प्रकोप हुने छैन ।

#### ४. स्थानीय विपद् जोखिम व्यवस्थापन आकस्मिक कोषको अनुगमन, मुल्याङ्कन तथा प्रतिवेदन

क. यो कोषको सञ्चालनका विषयमा स्थानीय विपद् जोखिम व्यवस्थापन समितिको बैठकमा नियमित जानकारी गराउने । बैठकले उद्धार तथा राहत कार्यदलबाट भएको कार्य यो निर्देशिका र प्रचलित कानून बमोजिम भए नभएको मुल्याङ्कन गर्ने तथा आवश्यक पृष्ठपोषण वा निर्देशन गर्ने ।

ख. उद्धार तथा राहत कार्यदलले स्थानीय विपद् जोखिम व्यवस्थापन आकस्मिक कोषको वार्षिक प्रतिवेदन तयार पारी स्थानीय विपद् जोखिम व्यवस्थापन समितिसमक्ष पेश गर्ने । उक्त वार्षिक प्रतिवेदनमाथि स्थानीय विपद् जोखिम व्यवस्थापन समितिको बैठकमा छलफल गर्ने ।

ग. उद्धार तथा राहत कार्यदल वार्षिक प्रतिवेदन उद्धार तथा राहत कार्यदलको सह संयोजकले तयार गर्ने । सो प्रतिवेदन तयार गर्न सह संयोजकले अन्य सदस्यको सहायता लिने सक्ने छन् ।

घ. वार्षिक प्रतिवेदन स्थानीय विपद् जोखिम व्यवस्थापन समितिले आफ्नो सुझाव समावेश गरि जिल्ला प्रशासन कार्यालय/ जिल्ला प्रकोप उद्धार समिति, जिल्ला विकास समिति र गा.वि.स. तथा गाँउ परिषद्मा पठाउने ।

#### ५. अन्य

क. यो निर्देशिकाको कुनै बुँदा नेपालको प्रचलित कानूनको वरखिलाफ भए उक्त बुँदा निस्कृय हुने छ र सो बुँदाको आधारमा टेकेर कुनै निर्णय गरिए कार्यान्वयन मान्य हुने छैन ।

ख. लागु मिति: यो निर्देशिका मिति २०६९..... गते .....वार वसेको स्थानीय विपद् जोखिम व्यवस्थापन समितिको .....औ बैठकले निर्णय गरे वित्तिकैदेखि लागु हुने छ ।
